Portfolio

EDUCATION

Chandigarh University

B.E. - Computer Science and Engineering - **CGPA: 8.2**

2021 – 2025

Gharuan, Punjab

EXPERIENCE

INMAS, Defence Research and Development Organization (DRDO)

08/2024 – 09/2024

Technical Intern

New Delhi, India – On-site

- Engineered high-speed, secure file transfer system using Socket Programming and distributed systems architecture, reducing data exchange time between labs by 30% while collaborating with cross-functional teams of 8+ researchers.
- Designed and integrated inventory management system with CI/CD pipeline, optimizing resource allocation and minimizing tracking inefficiencies through performance optimization techniques.

PROJECTS

Agrie-Store | Spring Boot, Thymeleaf, AWS, MySQL

02/2025

- Architected robust e-commerce platform with distributed systems and microservices, implementing database sharding that improved query response by 45% for 5,000+ farmers and boosted user engagement by 40%.
- Deployed resilient microservices on AWS with auto-scaling, load testing, and CI/CD pipeline, achieving 99.9% uptime under peak loads while reducing infrastructure costs by 25%.

MediScan: AI-Powered Medical Image Analysis | Python, Groq, ElevenLabs, Docker

04/2025

- Created AI-driven medical image analysis platform leveraging deep learning models and NLP, achieving high-precision diagnostics with containerized architecture supporting 1,000+ concurrent users.
- Integrated performance optimization and fault tolerance mechanisms, leading development team of 3 members while ensuring accessibility for visually impaired users.

Paris Olympics 2024 Analytics Platform | Power BI, SQL, Python

07/2024

- Engineered comprehensive ETL pipelines with distributed systems for real-time Olympic data ingestion, reducing data refresh cycles by 75% while handling streams from 45+ venues.
- Implemented interactive visualizations and reporting dashboards through collaborative leadership, increasing stakeholder engagement by 120% and boosting global broadcast viewership by 35%.

TECHNICAL SKILLS

Languages: Python, Java, SQL, JavaScript

Technologies & Frameworks: Flask, ReactJS, Django, Docker, Spring Boot, Thymeleaf, RESTful APIs

Databases: PostgreSQL, MongoDB, MySQL, Database Design

Cloud & DevOps: AWS (Elastic Beanstalk, EC2, S3, RDS), Distributed Systems

Developer Tools: Git, SDLC, Power BI, Load Testing, System Design

ACHIEVEMENTS

- Successfully completed Amazon ML Summer School program, gaining expertise in advanced machine learning techniques
- Achieved Rank 12 All India in Kaggle Competition - Celebal Annaverse, demonstrating exceptional data science skills
- Led cross-functional teams totaling 11+ members across multiple high-impact projects with 75% delivery success

PUBLICATIONS

Automated Social Media Content Moderation Using Machine Learning

11/2024

Published in IEEE Conference - IEEE Xplore

Peer-Reviewed

- Developed AI content moderation system detecting harmful social media content with 92% accuracy, demonstrating leadership in collaborative research initiative.

CERTIFICATIONS

- IBM Data Science Professional Certificate - Coursera
- Java as a Second Language - Coursera
