Career Objective

Motivated and detail-oriented Computer Science graduate seeking a data analyst or software development role. Skilled in Python, data visualization, and basic DevOps and cloud tools. Eager to contribute to a dynamic team while learning and growing professionally.

Technical Skills

- **Programming Languages:** Python (Core, OOPs, Pandas, NumPy, Matplotlib), C, C++, HTML, PHP (basic), CSS, JavaScript
- **Frameworks:** Flask, Django (familiar with MVC pattern)
- **Data Analysis & Visualization:** Power BI (Dashboards, DAX, Data modeling)
- **Cloud Computing:** Basic knowledge of AWS (EC2, S3, IAM)
- **DevOps:** Basic Git, GitHub, Docker overview, CI/CD concepts
- **Database:** MySQL (Joins, Subqueries, CRUD operations)
- **Tools:** VS Code, Jupyter Notebook, GitHub, Excel

Education

Master of Computer Science

Sir Parashurambhau College

2023 – 2025

CGPA: – 8.16

Bachelor of Computer Science

New Arts, Commerce and Science College (Pune University)

2020 - 2023

Percentage: 74.27%

XII

Pemraj Sarada College (Pune University)

2019 - 2020

Percentage: 66.15%

X

Aanada Vidyalaya (Pune University)

2017 - 2018

Percentage: 79.20%

Projects

Bus Booking Web App (Flask, MySQL)

Developed a web application that allows users to search buses, select seats, and book tickets. Includes admin panel for managing buses and bookings.

- Implemented seat selection logic with dynamic forms
- Used Flask, HTML, CSS, JavaScript, and MySQL

Task management system

Built a web-based Task Management System using PHP and MySQL to add, edit, delete, and track tasks across departments. Improved internal workflow by automating manual task handling processes.

- Used HTML, CSS, PHP, MySQL, JavaScript

KNN Classifier(basic)

Accurately detect cancer to support physicians while minimizing treatment costs and maximizing patient convenience.

- Used Python, Scikit-learn, and the Breast Cancer dataset to build a KNN model for classifying tumors, with data preprocessing and accuracy evaluation.

5G in IoT Research Report (Academic)

Conducted a study on the impact of 5G technology on IoT systems and applications.

- Explored real-time use cases and surveyed adoption trends
