SUMMARY

CDAC-certified software developer skilled in Core Java, .NET, C++, and SQL. Passionate about problem solving and developing scalable applications. Strong foundation in data structures, algorithms, and web development. Seeking a challenging role to apply my technical expertise and contribute to innovative solutions

EXPERIENCE

Jr.Software Engineer - Zensar Technologies - Sept 2022-Jan 2023

TECHNICAL SKILLS

Java	React.js	MySQL
Spring Boot	Node.js	JavaScript
Spring Security	.Net	Git

EDUCATION

PG-DAC (Diploma in Advance Computing)	Aug 2024-Feb 2025
BE- Eletronics and Telecommunication Engg.	2022
HSC	2017
SSC	2015

PROJECTS

Title:Online Society Management System

Key Skills: Core java, OOPs, Spring boot, Spring Security, Postman, MYSQL, React

This project is a web application designed to streamline society operations. It includes three key actors: Admin, who manages society rules, finances, and user access; This system enhances communication and efficiency in residential communities.

Title:Employee Leave Management System

Key Skills: Core Java, OOPs, Spring Boot, Spring Security, JPA, Hibernate, MVC, Maven, Postman, React

Developed a secure Employee Management System using Java, Spring Boot, and MySQL with JWT-based authentication. The system allows employees to register, log in, and apply for leaves, while managers can view, approve, or reject leave requests. Role-based access control and RESTful APIs were implemented to manage operations efficiently.
