🌐 in.linkedin.com/in/harsh-kumar-75a8a827b

Analytical and detail-oriented Data Analyst with hands-on experience in data visualization, statistical analysis, and predictive modeling. Proficient in Python, SQL, Tableau, and Excel, with a proven ability to extract insights from large datasets and deliver actionable business solutions. Strong communicator and quick learner, eager to contribute technical and problem-solving skills to a dynamic team

EXPERIENCE

02/2024 – 03/2025
Delhi

Data Analyst Intern, *Brillica Services*

- Developed data visualizations and dashboards to track business metrics using Tableau.
- Executed exploratory data analysis (EDA) on large datasets using Python (pandas, matplotlib) to uncover trends, outliers, and performance drivers.
- Built predictive models using machine learning algorithms such as logistic regression, decision trees, and random forests.
- Conducted research into industry best practices for data management processes and procedures.
- Authored and optimized SQL queries to extract and analyze data from relational databases, supporting cross-functional project teams.
- Generated detailed reports using Excel with advanced formulas, pivot tables, and charts to support business decision-making.
- Developed spreadsheets using Microsoft Excel software program.
