EDUCATION

Kalinga Institute of Industrial Technology Computer Science and Engineering Bachelor of Technology CGPA: 8.51	Bhubaneswar, Odisha September 2021 - August 2025
Aditya Academy Senior Secondary Computer Science Class 12-CBSE Percentage: 89.6%	Kolkata, West Bengal May 2019 - May 2021

EXPERIENCE

Celebal Technologies Data Analyst Intern	Remote Jun 2024 - Aug 2024
Collected, cleaned, and analyzed financial datasets from multiple sources, designed interactive Power BI dashboards tracking 15+ KPIs, performed exploratory data analysis using statistical techniques, and collaborated cross-functionally to deliver data-driven solutions that improved reporting efficiency by 40%	

SKILLS

Programming Languages:	Python, SQL , C/C++
Libraries/Frameworks:	Pandas, NumPy, Matplotlib, Plotly, Scikit-learn, PySpark
Tools / Platforms:	Microsoft Azure, Power BI, Microsoft Excel, Kaggle ,MLOps
Databases:	MySQL, SQLite

PROJECTS

Movie Recommender System using Sentiment Analysis Link	Python,Machine Learning,NLP
Deployed a ML movie recommendation engine analyzing 50,000+ movie reviews using sentiment analysis, collaborative filtering, and statistical methods including regression to predict user preferences with 85% accuracy and developed interactive web interface with visualizations.	
Multiple Disease Prediction Project Link	Python,Streamlit,Machine Learning
Engineered and deployed predictive analytics models for Parkinsons, heart, and diabetes diagnoses using supervised learning algorithms on 10,000+ clinical records; executed end-to-end data preprocessing, feature engineering, and model tuning, and delivered a user-facing web application with interactive dashboards.	
Mental Health AI Chatbot Web Application Link	Python,Flask,NLP,LLM
Engineered and deployed a locally hosted LLM- powered chatbot delivering empathetic mental health support and automated therapist booking;built a Flask backend with a conversation memory, intent handling and a privacy first design.	

CERTIFICATIONS

Generative AI for Software Developers Specialization - IBM.
Exploratory Data Analysis for Machine Learning - Coursera
Google Cloud Big Data and Machine Learning Fundamentals

HONORS & AWARDS

Secured second place in BITs N BRAIN, a tech fest even organized by KIIT Deemed to be University.
Developed a landing page on the topic "My Journey in KIIT".
