EDUCATION

Pune Institute of Computer Technology <i>ME-Computer Engineering - CGPA - 8.20</i>	2023-2025
Anantrao Pawar College of Engineering & Research Pune <i>BE-Computer Engineering - CGPA - 8.79</i>	2019-2023
Sant Gajanan Maharaj Arts & Science College Kankarwadi, Risod <i>HSC 71.85%</i>	2019
B.M.School Risod Dist.Washim <i>SSC 90%</i>	2017

Relevant Coursework

- DSA
- Machine Learning
- Git
- DBMS
- Artificial Intelligence
- SDLC
- Operating System
- Software Methodology
- OOPS Concepts

PROFESSIONAL EXPERIENCE

1. Prodfitsols Infotech (OPC) Pvt Ltd: -

22 May 2023 to 22 Jun 2024

Software Developer Intern: -

- Developed responsive user interfaces using HTML, CSS, JavaScript, and modern frameworks like React.js or Angular
- Converted UI/UX designs into functional and accessible web pages
- Integrated REST APIs to dynamically display backend data on the frontend.
- Used Git for version control and collaborated through GitHub.
- Fixed UI bugs, improved page performance, and ensured cross-browser compatibility.
- Collaborated with cross-functional teams and followed the **SDLC** for timely module delivery.
- Actively Participated in Agile/Scrum meetings, contributing to daily stand-ups and sprint planning.
- Took ownership of tasks, debugged issues, and improved application performance.

2. Link code Technologies Pvt Ltd: -

Frontend Developer Internship: -

- Developed responsive and accessible web interfaces using React, Angular, and Bootstrap.
- Worked closely with backend APIs and UI/UX designers to enhance user experience.
- Optimized performance and debugged cross-browser compatibility issues.

3. Infosys: -

(Virtual internship + Training): -

- In this virtual internship + training completed advanced programming training modules in advanced programming
- Concepts, problem-solving, and software development., OOP, & scalable app development.
- Gained hands-on experience in building scalable applications and optimizing code performance.

TECHNICAL SKILLS

Languages & Frameworks: Python, Java, C++, C#, JavaScript, TypeScript, PHP

Frontend Development: HTML5, CSS3, Bootstrap, React.js, Angular, Django

Database: SQL, MariaDB, MongoDB

Version Control: Git, GitHub, GitLab

Data & ML: Pandas, Scikit-learn, TensorFlow, Tableau (Basics)

Soft Skills: Communication, Adaptability, Team Collaboration, Quick Learning, Problem Solving

PROJECTS

Medicine Reminder Android App | Tech: Java, Firebase, XML, Android Studio.

- Developed an Android mobile application to help users manage and track their medication schedules.
- Used **Java** and **Android Studio** to build the app with an intuitive and user-friendly interface.
- Integrated **Firebase Realtime Database** for secure user data storage and cloud syncing.
- Implemented **local notifications** and **alarm manager** to trigger timely medicine reminders.
- Added features like medicine name, dosage, reminder time, and recurring schedules.

E-Pass Generator Web App | Tech: HTML, CSS, JavaScript, React.js, and Bootstrap, Git.

- Designed and developed a responsive and user-friendly frontend using React.js and Bootstrap.
- Integrated Spring Boot backend with role-based access control and secure login features.
- Enabled real-time pass generation and validation based on user roles (admin/user).
- Used Git for version control and followed SDLC best practices throughout the project.

Visualizing and Forecasting Stocks Using ML | Tech: Python, Pandas, TensorFlow, Jupyter Notebook, ML

- Developed a stock market analysis system that **visualizes trends** and **predicts future stock prices** using ML models.
- Collected and preprocessed historical stock data using **Pandas** and **NumPy**.
- Applied **Linear Regression** and experimented with other ML models for time series forecasting.
- Created **interactive data visualizations** using **Matplotlib** and **Seaborn** for trend analysis.
- Built a **web-based dashboard** to display real-time insights for users.
- Demonstrated understanding of **data preprocessing**, **feature engineering**, and **model evaluation metrics**.

CERTIFICATIONS

Python Programming – Scalar Topics

Java: Beginner to Advanced – LinkedIn Learning

Software Testing Basics – Great Learning

Web Development (HTML5 & CSS3) – Udemy

Full-Stack Web Dev Program – WS Cube Tech

Data Visualization with Tableau – Great Learning

Project Competition Certificate – PICT
