

NIKESH RAIPALLE

Results-driven and analytical Data Analyst Intern with hands-on experience in exploratory data analysis (EDA), dashboard development, machine learning, and data visualization. Proficient in Python, SQL, Power BI, and Excel, with a strong foundation in statistical techniques and data storytelling. Delivered real-world insights in domains such as sales, banking, and entertainment. Adept at building interactive dashboards, automating ETL workflows, and communicating findings to stakeholders for data-informed decision-making.

WORK EXPERIENCE

CodSoft | Bengaluru, India

Data Analyst Intern

July 2025 - Present

- Performed exploratory data analysis (EDA) on large structured datasets to derive business insights.
- Improved model accuracy by 15% using hyperparameter tuning (GridSearchCV) and cross-validation.
- Automated ETL pipelines in Python, reducing manual data processing by 20%.
- Conducted clustering and time-series forecasting to support strategic decision-making.
- Built dynamic dashboards and interactive reports for internal stakeholders.

EDUCATION

Don Bosco Institute Of Technology Bengaluru

BE in Artificial Intelligence and Data Science

Expected 2026

PROJECTS

Sales Analytics Dashboard

2025

- Built a region-wise sales dashboard with KPIs such as revenue, margin, and growth trends.
- Integrated SQL for live reporting and data filtering from relational databases.
- Enabled business teams to identify underperforming zones and focus marketing accordingly.

Banking Domain Customer Analysis

2025

- Analyzed 50,000+ banking transactions to identify customer churn risks and behavior patterns.
- Performed segmentation using clustering to tailor retention strategies.
- Delivered executive summary and dashboards to guide marketing efforts.

Netflix Data Exploration

2025

- Analyzed Netflix user behavior across different countries and content categories.
- Cleaned and transformed datasets, visualized genre popularity and viewing trends.
- Created summary statistics to support content strategy based on user preferences.

Technical Skills

- **Languages & Querying:** Python, SQL
- **Libraries & Tools:** Pandas, NumPy, Scikit-learn, Seaborn, Matplotlib
- **Machine Learning:** Regression, Classification, Clustering, Forecasting, NLP, Model Evaluation
- **Data Processing:** Data Cleaning, Statistical Analysis, Hypothesis Testing, A/B Testing
- **Dashboards & Visualization:** Power BI, Tableau, Excel
- **Databases:** MySQL, Firebase
- **Other Tools:** Flask, OpenCV, dlib, Git, MS Office, Google Workspace
- **Soft Skills:** Data Storytelling, Teamwork, Problem Solving, Communication

CERTIFICATE

- **IBM** – Data Analysis with Python
- **Microsoft** – Power BI
- **Microsoft** – Excel for Data Analytics
- **SimpliLearn** – SQL for Data Analytics
