DATA / BUSINESS ANALYST | Python • SQL • Power BI • Insights & Reporting

Detail-oriented Data Analyst with strong analytical thinking, business acumen, and hands-on experience in transforming data into actionable insights. Skilled in SQL, Excel, Python, Power BI, and Tableau for building dashboards, analyzing KPIs, and automating reporting. Proven record of cross-functional collaboration with marketing, product, and sales teams to drive strategic decisions. Fluent in business storytelling through data.

CORE SKILLS

Business Analysis: KPI Tracking, Sales Analysis, Marketing Metrics, A/B Testing

Data Tools: SQL (PostgreSQL, MySQL), Excel (PivotTables, VLOOKUP, Macros), Python (pandas, matplotlib)

BI & Visualization: Power BI, Tableau, Google Sheets

Data Handling: ETL Pipelines, Data Cleansing, Automation, Reporting

Soft Skills: Stakeholder Communication, Problem Solving, Presentation, Documentation

Languages: English (Full Professional), Hindi (Native), German (Basic)

EXPERIENCE

****Data Analyst – Commercial Strategy****

Beiersdorf GmbH (Germany) | Nov 2023 – Jul 2024

- Delivered KPI dashboards in Power BI for 5+ regional sales and marketing teams, improving reporting efficiency by 35%
- Automated Excel-based reporting using Python and macros, reducing manual errors and saving 6 hours/week
- Conducted data reconciliation and root-cause analysis for sales anomalies across campaigns
- Supported monthly business reviews with clear visual reports and trend analysis

****Business Intelligence Associate (Contract)****

EdithTech Infrastructure (India) | Jul 2022 – Feb 2023

- Designed automated performance dashboards for internal use, tracking product engagement and support metrics
- Integrated multiple data sources (Google Sheets, Firebase, API endpoints) into a single reporting layer
- Partnered with leadership to refine product KPIs and deliver data-backed insights

****Junior Analyst – Product & UX****

EMS Pvt. Ltd. (India) | Oct 2020 – Nov 2021

- Led UX data collection and usability studies for in-house tools
- Translated qualitative feedback and usage logs into actionable product recommendations
- Created user flow diagrams and reports for leadership, enhancing adoption by 20%

PROJECTS

****Customer Sentiment Analysis Dashboard****

- Extracted and analyzed 15K+ social media comments (Twitter, YouTube) using Python NLP
- Built Tableau dashboards to showcase sentiment trends, influencer impact, and campaign performance

****Retail Campaign Performance Tracker****

- Simulated A/B test results to compare marketing offers using Python
- Created Excel-based decision support tool for campaign planning and ROI forecasting

****Operations Efficiency Reporting****

- Designed Power BI dashboard to visualize team-level task metrics, backlog, and TAT
- Resulted in 25% improvement in SLA adherence across departments
