

# Nikhil Jogi

Nagpur, MH | 7666804589 | njogi16@gmail.com | <https://www.linkedin.com/in/nikhil-jogi/>

---

## EXPERIENCE

- **Data Analyst Intern | MRSAC , Nagpur** (Jan 2025 -present)  
Worked with the **Data Analyst team** to integrate **AI, automation**, and tools like **SQL, Python, Tableau, and Power BI** into geospatial analytics, improving **data accuracy** and **decision-making**.
  - **Data Analyst Intern | Maestro Intellect** (June 2024 – Dec 2024)  
Utilized **SQL, Python (Pandas, NumPy, Matplotlib, Seaborn), Tableau, Power BI, and Excel** at **Maestro Intellect** to conduct in-depth data analysis, develop interactive dashboards, automate reporting workflows, and perform data cleaning and preprocessing, significantly improving data-driven decision-making and operational efficiency.
- 

## EDUCATION

- **B.Tech in AIML | SB Jain Institute of Technology ,Nagpur** CGPA :7.5 | (Jun'21 – May '25)
  - **XII (MH Board) | Bhalerao junior college ,Saoner** 81 % | 2021
- 

## ACADEMIC PROJECTS

- **Rescue Mitra APP**  
Designed **data collection processes** for real-time **emergency response** in **Rescue Mitra**, using **Python, SQL**, and **predictive analytics** to analyze **user interactions** and **resource deployment**. Created interactive **dashboards** in **Tableau** and **Power BI** to visualize **trends** and optimize **efficiency**.
  - **Farmer Mart App**  
Collected and analyzed **agricultural market data** using **Python** and **SQL** to track **crop prices, demand trends, and market fluctuations**. Applied **predictive analytics** to forecast **market trends** and developed interactive **dashboards** in **Tableau** and **Power BI** to visualize **real-time data**, providing actionable insights for **pricing strategies** and improving **farmers' profitability**.
  - **E-commerce Sales Performance Analysis and Prediction**  
Collected and cleaned **e-commerce sales data** using **Python (Pandas, NumPy)**, performing **EDA** with **Matplotlib** and **Seaborn**. Applied **machine learning** algorithms (**Linear Regression, Random Forest, XGBoost**) to predict **sales trends**. Developed interactive **dashboards** in **Tableau** and **Power BI** to visualize **key metrics** and **sales performance**, providing actionable insights for **sales**.
- 

## SKILLS

- **Data Analysis & Visualization:** Python (Pandas, NumPy), R, Power BI, Tableau
- **Databases & SQL:** MySQL, PostgreSQL, SQL Server
- **Machine Learning & Statistical Analysis:** Scikit-learn, Regression, A/B Testing
- **Data Cleaning & Transformation:** Data Wrangling, ETL Processes

---

## CERTIFICATION

- **Data Science Professional Certificate – (Coursera)**
- **Data Analytics with Python - IBM (Coursera)**

---

## Leadership / Extracurricular

- **Technical head | Vichitra Esports , Nagpur** **(March 2023 – Present)**  
Set up, optimized, and maintained live streaming and gaming systems for competitive eSports events, including software/hardware configurations and technical support, while successfully managing two high-profile Alienware events powered by Dell, handling all technical and logistical aspects.
