SUMMARY

Dynamic and results-driven Computer Science graduate with practical experience in Data Analytics and a growing passion for Data Engineering. Proficient in Python (Pandas, NumPy), SQL (T-SQL), and Excel, backed by a strong foundation in DBMS concepts. Skilled in transforming complex datasets into actionable insights through advanced data wrangling, querying, and visualization. Eager to build scalable data pipelines and contribute to innovative, data-centric solutions in a forward-thinking team.

WORK EXPERIENCE

Dec 2024 - June 2025

Data Analytics Trainee, CETPA infotech pvt. ltd NOIDA

- Completed comprehensive training in Python for Data Analysis, focusing on libraries like Pandas, NumPy, Matplotlib, and Seaborn.
- Gained practical knowledge of SQL for data querying and database handling.
- Developed advanced Excel skills including pivot tables, VLOOKUP/XLOOKUP, and data visualization.
- Built interactive Power BI dashboards to present insights from structured and unstructured datasets.
- Applied critical thinking to extract actionable insights from data.

PROJECT

Sales Analysis and Visualization on Blinkit Dataset

- Cleaned and prepared sales data using Pandas and NumPy, handling nulls and inconsistencies with group-based imputation.
- Analyzed revenue, average sales, top-performing locations, and outlet size trends.
- Visualized key insights using Matplotlib and Seaborn to support data-driven decisions

Sales Dashboard and Data Analysis on Coffee Shop Dataset

- Cleaned and structured data using Power Query, separating product info and time fields.
- Analyzed sales, average bill, and outlet performance via Pivot Tables.
- Built an interactive Excel dashboard with slicers and visualizations (bar, pie, trendline).

Pizza Sales Analysis (SQL and MS Powerpoint)

- Analyzed multi-table pizza sales data using SQL to extract key metrics and trends.
- Generated insights on revenue, top-selling pizzas, and time-based order patterns.
- Presented findings through a structured PPT with queries and visual summaries

EDUCATION

Bachelor of Engineering (Computer Science and Engineering)

Aug 2017 - July 2022

Chandigarh University, mohali ,Punjab

- Specialized in Data Analytics and Software Development.
- Completed thesis on Leveraging Data-Driven Technologies for Smart System Optimization.

ADDITIONAL INFORMATION

- **Languages & Tools:** Azure Fundamentals, Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (T-SQL), SSMS, MS Excel, Power BI
- **Skills:** Cloud Basics (Azure), Data Cleaning, Data Visualization, Dashboard Creation, Data-Driven Decision Making
- **Languages:** English, Hindi
- **Certifications:** SQL Certification by Vimal Daga.
