🔗 CAREER OBJECTIVE

A highly motivated and detail-oriented MCA final-year student with hands-on experience in data analysis, full-stack development, and business intelligence. Passionate about transforming data into actionable insights and building scalable web solutions. Actively seeking an internship as a Product/Data Analyst to leverage my data and product understanding to support data-driven decision-making.

Technical Summary: Python | SQL | Power BI | React | Node.js | Excel | Machine Learning | MongoDB | Tableau

📁 WORK EXPERIENCE

Data Analyst Intern (Aug 2024 – Dec 2024)

The Man Company (Emami Group), Gurugram

- Built dashboards in Power BI to visualize supply chain KPIs, reducing manual reporting time by **30%**.
- Collaborated with procurement and logistics teams to streamline data reporting.
- Improved inventory and lead time tracking by 20% through accurate dashboards.

Data Science Intern (May 2023 – Jun 2023)

Orangus Pvt Ltd, New Delhi

- Developed classification models with **85%+ accuracy** to predict customer segments from structured data.
- Improved model accuracy through hyperparameter tuning and data preprocessing.
- Delivered insights that influenced **3+ project decisions**, improving model selection and performance.

📁 PROJECTS

Excel & Power BI Dashboards

- Built interactive dashboards for Walmart and local store sales.
- Analyzed customer segmentation, state-wise sales, and AOV metrics.
- Provided data-driven recommendations for marketing strategies.

Census Income Prediction (ML)

- Built ML model with **~80% accuracy** to classify income levels based on education, age, and work class.
- Used statistical analysis and machine learning for predictions.

Power Bi Dashboard

- Built interactive dashboards for **Walmart** and **Madhav Store** to analyze customer behavior, regional sales, and product performance.
- Targeted marketing campaigns for women (30–49 yrs) in key states using offer data from Amazon, Flipkart, and Myntra.
- Delivered insights that helped identify **15% underperforming products** and **boosted campaign targeting** efficiency.

E-Commerce Website

- Designed and developed a full-stack e-commerce platform using HTML, CSS, And JS.
- Integrated secure payment and product management systems.

Netflix Clone Website

- Created a responsive clone of Netflix using HTML and CSS.
- Replicated homepage layout, banner, thumbnails, and footer using Flexbox and Grid.
