Data Annotation Specialist

12/2023 – 03/2025

Eligarf technologies Pvt Ltd

Sales Reporting & Analysis

- Prepare and maintain regular sales and business performance reports using Excel, Power Query, and Power BI.
- Analyze data to generate actionable insights for sales strategies and decision-making.

Customized Report Creation

- Develop personalized reports based on specific team or stakeholder requirements.
- Ensure timely delivery of accurate and meaningful data visualizations and summaries.

Sales Opportunity Management

- Track and update the status of sales opportunities, identify risks, and communicate them clearly to the team.
- Maintain visibility into sales pipelines to support forecasting and planning.

Stakeholder Communication Support

- Facilitate meetings for the sales team, take clear meeting notes, and follow up on action items.
- Support cross-functional teams by sharing timely and relevant business updates.

Data Inquiry & Support

- Provide prompt and accurate responses to sales-related data queries from internal teams.
- Ensure smooth access to key business information for quick decision-making.

Collaboration & Client Engagement

- Work closely with sales, marketing, and client teams to understand needs and ensure smooth communication.

Process Improvement & Quality Focus

- Contribute to enhancing reporting workflows and maintaining data accuracy.
- Maintain a high standard of data integrity, reporting consistency, and quality assurance.

Adaptability & Agility

- Demonstrate flexibility to support ad-hoc analysis, extended working hours, or urgent business needs.

PROJECTS

Analysis of FMCG market

In this project, we have analysed the data of food industry to find factors affecting the sale.

Data Collection & Preparation

- Collected data from sales records, market research reports, consumer surveys, and industry databases.
- Cleaned data by removing inconsistencies, missing values, and outliers.

Exploratory Data Analysis (EDA)

- Calculated descriptive statistics (mean, median, mode, standard deviation).
- Visualized data using histograms, box plots, and scatter plots to analyze trends.

Sales Analysis & Market Insights

- Identified key factors affecting sales.
- Conducted market segmentation and price sensitivity analysis.

Statistical Analysis & Modeling

- Performed regression analysis to assess relationships between sales and influencing factors.
- Used time series analysis for trend forecasting and seasonality effects.

Business Insights & Strategy

- Provided data-driven recommendations to optimize marketing, pricing, and product strategies in the FMCG sector.

ACHIEVEMENTS:

- Organized many organization level events as part of RNR activities.
- 1st Price winner at organization level sports event.

CERTIFICATES

- Fundamentals of visualization with tableau
- Power BI
- Business analytics
- MS Excel
