EDUCATION

LDRP Institute of Technology and Research (KSV), Gandhinagar
B.Tech in IT Engineering

2021-2025
6.8/10 CGPA

CAREER OBJECTIVE

Recent B.Tech graduate in information technology with internship experience as a Jr. Sap functional consultant, seeking an entry-level Business Analyst role. Possess a strong foundation in software development, data management, and stakeholder communication. Eager to contribute analytical and technical skills to help businesses solve problems, enhance processes, and support decision-making through data-driven insights.

WORK EXPERIENCE

Internship

ErpBotHub - Jr. SAP Functional Consultant Intern (3 months):

- Worked with SAP Business One to understand and configure modules for inventory, sales, and delivery processes.
- Gained hands-on experience with Data Transfer Workbench (DTW) to streamline bulk data migration.
- Utilized MS Excel for data formatting, cleansing, and import/export tasks.
- Assisted with documenting business processes and supporting day-to-day operational tasks.

PROJECTS

Sign Speak

Dec 2024 – Apr 2025

- Real-time sign language translator using HTML, CSS, JavaScript, and Python.
- Demonstrated problem-solving and UI/UX design for accessibility.

Essential Eats

Jun 2024 – Nov 2024

- Grocery delivery platform developed using PHP.
- Focused on usability, payment integration, and order tracking.

We Help

Jun 2023 – Nov 2023

- Built a web portal connecting users with household service providers using HTML, CSS, and JavaScript.
- Emphasized search functionality and provider rating system.
