Prayagraj, India | +91 6391518234 | pranjalmaurya250@gmail.com | [LinkedIn](#)

EDUCATION

B.Tech in Civil Engineering <i>Dr. APJ Abdul Kalam Technical University</i>	2019-2023
Grade XII, CBSE <i>D.P. Public School, Prayagraj</i>	2019
Grade X, CBSE <i>B.B.S. School and College, Prayagraj</i>	2017

EXPERIENCE

- Executive – Data Analytics & Email Marketing** | *OPK e Services* **July 2023 - April 2025**
 - Generated and maintained 10+ daily, weekly, and monthly reports, improving business visibility across **KPIs by 30%**.
 - Analyzed post-campaign KPIs (**open rates, CTRs, unsubscribes**), identifying trends that increased engagement by **15%**.
 - Planned, executed, and optimized email campaigns via Ongage, reaching **300M+ recipients/month**, achieving avg. **25% open rate** and **3% CTR**.
 - Collaborated with cross-functional teams to design **50+ high-impact email templates** with dynamic personalization.
 - Monitored campaign metrics in real time, **reducing unsubscribe rates by 12%** through timely interventions.
 - Executed A/B and multivariate testing, identifying key success levers that improved campaign performance by **20%**.
 - Maintained **99.9% data accuracy** across CRM systems, **reducing bounce rates** and **sync issues by 25%**.
 - Handled data import and management in **SQL**, maintaining clean and consistent datasets across tables.
- Data Analyst Intern** | *CrackNonTech* **July 2025 – Present**
 - Mastered business fundamentals through non-tech industry overviews, profitability analysis, market entry strategies, and business case studies.
 - Sharpened analytical thinking skills by tackling guesstimates, case studies, and complex business problems. Learned to dissect challenges and present data-driven solutions.
 - Equipped with proficiency in SQL and Python programming, honed communication skills for impactful presentations.

PROJECTS

- Urban Company Product Analysis** | *Market Research, Competitor Benchmarking, UX/UI Audit* | [Link](#)
 - Conducted a detailed teardown of Urban Company's business model, user journey, and competitor landscape to identify growth opportunities and pain points.
 - Analyzed product gaps like lack of multi-service booking, service inconsistency, and trust issues using real user feedback and feature benchmarking.
 - Proposed data-backed solutions such as multi-service cart, partner training modules, and dynamic pricing to enhance user experience and retention.
- Uber Trips Analysis** | *Python (Pandas, Matplotlib, Seaborn)* | [Link](#)
 - Analyzed Uber trip data for New York City, uncovering key trends in rider behavior across days of the week and time of day.
 - Identified **Monday** as the most **profitable day** and **6 PM as the peak hour**, while Saturdays saw lower usage, helping inform demand-based strategies.
 - Most of the Uber trips originate near the **Manhattan** region in New York.
- Unemployment Analysis** | *Python (Pandas, Matplotlib, Seaborn)* | [Link](#)
 - Performed Unemployment Rate Analysis using **Python** on region-wise data, calculating key metrics like Unemployment Rate, Labour Participation Rate, and Employment Levels.
 - Visualized trends across Indian states using **Seaborn** and **Plotly** (e.g., heatmaps, histograms, line graphs), improving data interpretation and comparison.
 - Derived actionable insights by correlating unemployment data with geographical and temporal features to identify high-risk zones and labor market disparities.

SKILLS

- Technical Skills:** Microsoft Excel, SQL, Spreadsheets, Python, SAP ABAP, HTML/CSS (Email Templates)
- Tools:** Tableau, Power BI, Salesforce Marketing Cloud (ExactTarget), Ongage, Campaigner, I-Post
