Data Analyst

| +917404840216 | parmoddhimankyt123@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

EDUCATION:

Deenbandhu Chhotu Ram University of Science & Technology, Sonipat, India
B.Tech., 7.52 CGPA

Aug 2021

SKILLS:

Analytical Tools:

- Power BI
- Advanced Excel
- Tableau

Programming Languages:

- SQL (Structured Query Language)
- Python

Database:

- MySQL
- Microsoft SQL Server

EXPERIENCE:

GSPANN Technologies, Inc.,

Oct 2024-Present

- Currently working as a Data Analyst Intern with hands-on experience in SQL and real-world data projects.
- Contributing to stakeholder-driven projects focused on SQL optimization, Python-based data handling, and Tableau visual analytics...
- Participating in weekly stand-up calls with the team to understand ad-hoc requirements and provide actionable insights using SQL and analytical skills.
- Strong aptitude for transforming raw data into actionable insights to drive informed decision-making.
- Effective communicator with proven problem-solving abilities in data-centric environments.
- Experienced in developing interactive dashboards and data visualizations.
- Familiar with building basic ETL workflows and integrating data into dashboards using tools like Tableau for clear and simple reporting.
- Contributed to sales and operations data analysis projects to uncover business insights.

PROJECT EXPERIENCE

Business 360 - Brick & mortar and e-commerce

[Power BI | SQL | Excel] | [Live Dashboard](#)

- Engineered a multi-view Power BI dashboard for 5 departments (sales, finance, supply chain, executive, and marketing) to analyze global selling patterns at AtliQ Hardware
- Data imported from 2 sources (MYSQL and Excel), handling over 1 million records, constructing data models, and visualizations in Power BI
- Enhanced the report's efficiency using DAX Studio, resulting in 30% storage savings and 5% performance enhancement

Hospitality Analysis

Hotel Chain Business [Power BI | Excel] | [Live Dashboard](#)

- Customized a Power BI dashboard using 3 months of hotels and bookings data, pinpointing reasons for declining market share and revenue at AtliQ Grands
- Enabled the Revenue Team with actionable insights, predicting a rapid 20% recovery in both revenue and market share within a month

P&L Report - [Excel | Pivot Table | Power Query] | [GitHub Repo](#)

- Automated data cleaning using Power Query, saving approximately 4 hours of manual work
- Implemented DAX measures, resulting in 25% more flexibility and user-friendly calculations

CERTIFICATIONS / AWARDS:

- Accenture North America's Data Analytics and Visualization on Forage [\[Credential\]](#)
- Tata Data Visualizations: Empowering Business with Effective Insights on Forage [\[Credential\]](#)
- Career Essentials in Data Analysis by Microsoft and LinkedIn [\[Credential\]](#)
