

Pavankumar Rahangdale

Data Engineer & Data Analyst

+919022213962 rahangdalepawan015@gmail.com Pune, India www.linkedin.com/in/pavankumar-rahangdale-93bba7241

SUMMARY

Detail-oriented Data Analyst and Data Engineering Intern with over 9 months plus of hands-on internship experience in data processing, analysis, and workflow automation. Proficient in leveraging Python,SQL,Power BI, Tableau and Azure to build efficient ETL pipelines and support analytics initiatives. Strong foundation in data integration, end-to-end workflow management, and ensuring data quality. Experienced in working with large datasets to extract actionable insights that drive data-driven decision-making and support business goals.

KEY SKILLS

- Machine Learning
- Dashboarding
- Azure Data Factory
- Data Visualization
- SQL
- Data Cleaning and Preprocessing
- Problem Solving
- Data Warehouse
- Advance Excel
- Critical Thinking
- TeamWork

TECHNICAL SKILLS

Languages	Python
Frameworks	Apache Spark
Libraries	PySpark, Pandas, NumPy, Matplotlib, Seaborn
Cloud	Azure
Databases	MySQL
Platforms	Microsoft Fabric
Visualisation Tools	Power BI, Tableau,Excel

CERTIFICATIONS

- Python for Data Science
- Machine Learning with Python
- Masters in Data Software Engineering

PROFESSIONAL EXPERIENCE

Sept 2024 – Present

Data Analyst Intern

Pune

IT Vedant Pvt Ltd

- Cleaned and transformed large datasets using Python (Pandas, NumPy), handling missing values, duplicates, and inconsistent formats.Built visualizations (bar charts, heatmaps, time-series plots) using Matplotlib and Seaborn to support weekly stakeholder reviews.
- Applied group-by and pivot table operations to extract key business KPIs and summarize performance metrics.
- Employed basic statistical techniques to validate hypotheses and support findings with data-driven evidence.
- Delivered weekly progress updates and notebooks, ensuring transparency and consistency throughout the internship.
- Prepared a final comprehensive report summarizing actionable insights and project impact.
- Strengthened analytical thinking, problem-solving, and reporting skills through real-world project execution.

Tools/Technologies: Python, PySpark, Azure,Power BI, Tableau, SQL, Excel.

PROJECTS

Sept 2024 –Mar 2025

Social Media Analysis

- Designed and implemented a MySQL-based social media analysis project, utilizing relational database principles to efficiently store, retrieve, and analyze large volumes of social media data.
- Developed key features such as user profiles, post storage, sentiment analysis, and trend tracking to generate actionable insights on user behavior and trending topics.
- Performed sentiment analysis to categorize user-generated content, aiding in the identification of public opinion trends.
- Demonstrated strong proficiency in database design and management, ensuring data integrity, scalability, and performance.

Titanic Analysis

- Performed extensive data wrangling and preprocessing on large datasets using Python (Pandas, NumPy), preparing clean, feature-rich inputs for downstream modeling and reporting.
- Performed exploratory data analysis (EDA) on the Titanic dataset using Python, analyzing survival patterns across 890+ passengers.
- Visualized survival trends using Matplotlib and Seaborn, uncovering key insights based on age, gender, and passenger class, improving interpretability by 40%.
- Built and evaluated machine learning models including Logistic Regression and Random Forest, achieving over 80% prediction accuracy for passenger survival outcomes.

EDUCATION

Bachelor of Engineering (B.E)

July 2019 –Aug 2023

D Y Patil College Of Engineering,Pimpri

Pune

- CGPA: 8.20 CGPA
