SUMMARY

Business Analyst with 10 months of experience across the BFSI domain. Skilled in SQL, Power BI, and Data Modelling with a proven track record in applying analytics to drive business growth

EXPERIENCE

SMFG India Credit (Fullerton India), Delhi

Business Analyst (MT – Credit Underwriting)

Jun 2024 – Mar 2025

Project 1 - Loan Disbursement Process Optimisation

- Mapped the complete credit approval journey via **Process Mapping and Root Cause Analysis**
- Created SQL-based reporting frameworks, reducing **Turnaround Time from 10 days to 8 days**
- Implemented automation in workflows through Power Query, **improved team efficiency by 30%**
- Automated document verification steps, **streamlining processes**, and reducing manual efforts

Project 2 - Delinquency Mitigation for Business Loan Segment

- **Crafted a Dashboard with data modelling** to track repayment patterns and visualise trends
- Applied hypothesis testing to identify key factors contributing to a **10% fall in delinquency rate**
- Ensured **data accuracy** through validation checks, aligning with **data governance principles**
- **Collaborated cross-functionally** to reduce operational load by optimising mid-month closure

R K Engineering Works, Jaipur

Business Analyst

Mar 2020 – Jun 2022

Project 1 - Lead Generation & Cross-Sell Strategies

- Leveraged SQL, **Regression Modelling** to analyse sales data, **boosted lead generation by 10%**
- Built an **interactive Power BI** sales dashboard with real-time filters and **funnel analytics KPIs**
- Performed conversion rate optimisation by conducting **A/B testing** on MSME testimonial placements, enabling a **15% gain in conversion rate** through data-driven insights

EDUCATION

PGDGB0 - **SRCC**, Delhi University

May 2024

BA – Rajasthan University

Nov 2020

SKILLS

Technical: SQL, Power BI, Python, MS Excel, Regression Modelling, Agile Frameworks, Power Automate

Functional: Data Visualization, Hypothesis Testing, Process Optimization, Requirement Gathering

CERTIFICATIONS

- 5-month course on Data Science by Brainalyst Mar 2024
- Workshop on Excel, Data Analytics & Visualisation, and Storytelling with PowerPoint Jul 2022
