EDUCATION

Thapar Institute Of Engineering & Technology

Bachelor of Engineering in Computer Science

Patiala, Punjab

Aug. 2022 – May 2026

EXPERIENCE

ADP Pvt Ltd, India

Data Analyst Intern

June 2025 – August 2025

Hyderabad, Telangana

- Analyzed 2M+ records using PySpark & SQL to derive key business KPIs, driving actionable product decisions
- Developed EasyXL — a Streamlit-based tool to execute .sql scripts on SQL Server, export Excel with dynamic summaries & charts, automate formatting, and integrate Outlook API for instant report sharing

PROJECTS

EasyXL | *Python, Streamlit, SQL Server, Pandas, XlsxWriter, PyODBC, Outlook API*

[GitHub](#)

- Developed Streamlit tool to run .sql scripts, export Excel with dynamic summaries, pie/bar charts, and large dataset support.
- Added multi-file upload, streaming output, and user-driven column selection for targeted reporting.
- Automated Excel formatting with conditional styling, frozen headers, and separate summary sheets.
- Integrated Outlook API to auto-generate and send reports via email.

Data Warehousing Project | *SQL Server, T-SQL, SSMS, Star Schema, PySpark, Excel*

[GitHub](#)

- Designed and implemented a full-stack Data Warehouse architecture using Bronze-Silver-Gold layered modeling, ETL pipelines, and Star Schema
- Performed data cleaning, transformation, and loading across 7+ datasets (CRM & ERP sources), building robust dimension and fact tables
- Used T-SQL and stored procedures to automate table creation, data ingestion, and business logic for KPI reporting and customer segmentation

End-to-End Sales Analytics | *T-SQL, SSMS, Excel*

[GitHub](#)

- Developed a complete analytics workflow using T-SQL in SSMS on sales, customer, and product data from Excel sources
- Performed deep sales analysis using CTEs, window functions, subqueries, and aggregates
- Leveraged advanced SQL techniques to generate KPIs, rank performance, and uncover sales trends
- Identified top 5 product categories by contribution margin and recommended pricing adjustments to improve profitability

TECHNICAL SKILLS

Languages : Advanced SQL (T-SQL), Python (Pandas , NumPy)

Tools : Git, GitHub, SSMS, Excel , Tableau, Jupyter

Big Data & ETL: PySpark, Apache Spark, Databricks, ETL, Data Pipelines, Data Warehousing

Data Visualization : Tableau

Other : AWS(Basic), MongoDB, Git, Data Storytelling, Structured Problem Solving, ChatGPT (GenAI tools)

CERTIFICATIONS

Databricks Fundamentals Accreditation
