Location: Ghaziabad, India | **LinkedIn:** <http://www.linkedin.com/in/pranjal-kastwar-82b846177>

Professional Summary

BTech Computer Science graduate with strong proficiency in Python, SQL, Excel, and Power BI. Passionate about uncovering insights through data analysis and visualization. Skilled in data preprocessing, machine learning, dashboard development, and SQL query optimization. Adept at solving business problems through structured analysis and analytics tools. Certified Data Analyst with hands-on experience in end-to-end data projects.

Technical Skills

Tools & Languages: Python, SQL, Excel, Power BI

Databases: MySQL

Core Skills: Data Cleaning, EDA, ML (Regression, Classification), Dashboarding

Education

BTech in Computer Science Engineering

Institute of Technology and Management, Gwalior — 2023 | CGPA: 8.12

12th – Kendriya Vidyalaya No. 1, Gwalior — 2019 | 65%

10th – Kendriya Vidyalaya No. 1, Gwalior — 2017 | CGPA: 8.80

Projects

Credit Card Consumption Prediction | Python, XGBoost, Regression

- Predicted 3-month average credit card consumption using demographic and transaction data.
- Performed data cleaning, EDA, feature engineering, and imputed missing values.
- Built and tuned models: Linear, Ridge, Random Forest, XGBoost (Best RMSPE: 34.32).
- Used RMSPE as an evaluation metric and deployed best-performing model.

Retail Analytics Dashboard & Data Validation | SQL, Power BI, Excel

- Built a multi-page retail dashboard covering sales trends, customer behavior, and category analysis.
- Cleaned data for issues like duplicate IDs, timestamp errors, and missing values.
- Delivered insights on customer satisfaction, product performance, and regional sales patterns.

Marketing Analytics | Python, Pandas

- Performed EDA on e-commerce platform data to uncover customer behavior and preferences.
- Derived KPIs such as acquisition rate, revenue, and cross-sell metrics.
- Built visualizations to support marketing decisions.

Mobile Manufacturer Sales Analysis | SQL

- Designed a star schema model for sales reporting.
- Wrote complex SQL queries to identify top brands, trends, and regional performance.

Certifications

- Certified Data Analyst – AnalytixLabs (Jan 2025)
- Certified Data Analyst (Python) – AnalytixLabs (Feb 2025)
- Certified Data Scientist (Python) – AnalytixLabs (Jul 2025)
- AWS Academy Graduate – AWS Educate
- Celonis Process Mining Fundamentals – Celonis
