SUMMARY

Self-motivated and quick learner with a strong data analytical mindset and a passion for technology. Adept at problem-solving and delivering innovative solutions through technical expertise. Data enthusiast with hands-on experience in **data analysis, EDA, ETL, and SQL-driven insights**. Proficient in **Python, SQL, and data visualization PowerBI**, with a strong ability to extract, analyze, and interpret complex datasets to drive informed decision-making.

EDUCATION

Poornima University

Masters of Computer Application(AI&DS)

Jaipur, India

August 2023 - April 2025

S S Jain Subodh Commerce and Arts College

Bachelor of Commerce

Jaipur, India

August 2019 - August 2022

SKILLS

- **Languages:** Python, SQL, JAVA , Machine Learning
- **Libraries:** Pandas, Numpy, Scikit-Learn, Matplotlib, Seaborn, Requests
- **Framework:** Flask
- **Tools:** Power BI, Excel, PowerPoint, MySQL
- **Platforms:** PyCharm, Jupyter Notebook, Visual Studio Code, IntelliJ IDEA
- **Soft Skills:** Leadership, Team player, Adaptability, Problem-solving

WORK EXPERIENCE

DATA SCIENCE INTERN | GRRAS SOLUTIONS

September 2024- March 2025

- Optimized machine learning models, **improving accuracy by 80%** through feature engineering and hyperparameter tuning.
- Developed automated data processing workflows, **reducing manual effort by 25%** and ensuring seamless data handling.
- Utilized Pandas, NumPy, and SQL to clean, transform, and analyze large datasets **for insights extraction**.
- Conducted in-depth statistical analysis to uncover patterns, anomalies, and trends, leading to **data-driven strategy improvements**.

DATA ANALYST INTERN | GRRAS SOLUTIONS

August 2022- January 2023

- Streamlined data collection and reporting procedures, **reducing processing time by 20%** enhancing efficiency.
- Implemented process improvements and automation solutions, **resulting in 15% increase in productivity**.
- Collaborated with 3+ cross-functional teams to gather requirements, define project scopes, and ensure alignment with business objectives, **fostering effective teamwork and project success**.
- Conducted in-depth market research and analysis that informed strategic decision-making processes.

PROJECTS

Weather Prediction Application

- Successfully implemented real-time weather data retrieval using APIs, ensuring accurate and up-to-date forecasts.
- Added functionalities like **hourly forecasts, humidity, and wind speed** for better user experience.
- Optimized API calls and caching strategies to reduce load time and enhance performance.
- Implemented geolocation services to automatically detect user location and display local weather conditions.

Global Superstore Dashboard

- Designed an interactive dashboard to analyze **sales, profit, and customer trends** for a global retail business.
- Identified **top-performing products, regions, and customer segments**, optimizing business strategies.
- Identified potential areas for expansion and investment by evaluating **regional sales performances**.
- Highlighted **profit margins, loss-making segments, and high-revenue categories**, allowing for targeted business improvements.

Adventure Works Dashboard

- Worked on creating a comprehensive dashboard using Power BI and Excel for Adventure Works, a retail company.
- Collected, cleaned, and transformed data from various sources to build visualizations that provided actionable insights.
- Designed interactive dashboards to monitor key business metrics, performance trends, and customer insights.
- Utilized data analytics techniques to enhance decision-making and improve business processes
