RESUME SUMMARY

With a strong foundation in Python, SQL, and data science, I aim to revolutionize language translation tools. Experienced in Python projects and data science internships, I aspire to combine technology and creativity to make a meaningful impact in the field. Passionate about continuous learning and growth in the tech industry.

PERSONAL DETAILS

Current Location Amravati, Maharashtra
Date of birth June 29, 2004
Gender Male

EDUCATION

Graduation B.Tech /B.E. (Computers)
Department of technology, Shivaji university with Score 8.08% Achievements: Top 10 in class
Class XII Maharashtra
with 90% in 2021
Achievements: Top 10 in class
Class X Maharashtra
with 86.2% in 2019
Certification Course Python, SQL, Data Science, Machine Learning

INTERNSHIPS AND PROJECTS

Internships **Edu versity.pvt.Ltd** (Duration June 2024 - July 2024)
I have learn from in this internship python for data science usable and also how to handle jupyter notebook and We can learn SQL in data science using queries Skills used - Python, SQL, Numpy, Pandas, Data Cleaning
Projects **1) Python Based Language Translator Tool** (Duration March 2024 - April 2024)
For this Project, I have developed translator tool using a Google translator API and do something different from Google translator, in that, we can translate English sentence or word or paragraph in Hindi and Marathi language simultaneously.
Skill Used : Python, Tkinter, Google Translator API
2)Sign Language To English Translator for deaf and Mute People
For this Project, I have developed Sign Language translator for deaf and Mute Community for understanding their sign language to normal user. Sign translate to words and give sentence, ML Model like CNN, Mediapipe , Detect hand gestures ,Understand sign language to normal user. have learned from this project how to work python libraries as a keras , OpenCV and Tkinter ,Flask in the project and those system designed robust for deaf and mute community for that hand sign is recognized by CNN and image has been processed and by mediapipe gesture of hand has been classified by segments points on hand after that shows each sigs database created and by that shows word and created the sentence and speak it.
Skills used: Python, CNN, Medapipe , OpenCV, Tkinter,Flask,Keras

SKILLS AND ACHIEVEMENTS

Skills Academics , Communication Skills, Python, SQL, Ms Excel, Ms Office, Computer Science, Time Management, Analytical Skills, Machine Learning ,Pandas
Language English, Hindi, Marathi

WORK EXPERIENCE

Total Experience 2 months
Company Name Edu versity.pvt.Ltd
Duration June 2024 - July 2024
Job Profile Data Science Intern
