

Pratik Bankar

Data Analyst | Data Visualization | SQL

E 9730329969 ✉ pratik1903bankar@gmail.com 🔗 <http://bit.ly/41b7CWs>

SUMMARY

Eager to apply my data analysis skills in a dynamic environment. Skilled in SQL, Python, and data visualization. Aspiring to contribute to data-driven decision-making processes and eager to develop further in data analytics.

EDUCATION

Bachelor of Technology | CGPA 7.2
Vishwakarma University, Pune

📅 2022 Present 📍 Pune, India

Diploma | 85.73%
AISSMS, Pune

📅 2019 2021 📍 Pune, India

PROJECTS

Data Science and ML Project

- Sign Language Recognition for Deaf and Dumb People
- Developed a **Hand Sign Language Detection system** using **CNN, TensorFlow, and Mediapipe**, achieving **95% accuracy**.
 - Implemented **real-time hand tracking** with **Mediapipe**, detecting **21 landmarks** for precise recognition.
 - Optimized **preprocessing** with **OpenCV**, reducing **false detections by 30%**.
 - Converted **hand signs into text and speech**, enhancing accessibility.
 - Deployed as a **web app** using **Flask**, increasing **user engagement by 40%**.

Data Mining: Traffic Optimisation

- Smart Traffic Optimization Using Data Mining
- Developed a **Traffic Optimization system** using **Data Mining, Python, Pandas, and Scikit-learn**, improving **traffic flow efficiency by 35%**.
 - Analyzed **real-time traffic data**, identifying congestion patterns and reducing **average commute time by 25%**.
 - Implemented **predictive modeling** to optimize signal timing, decreasing **traffic bottlenecks by 30%**.
 - Optimized **dataset processing**, reducing computation time by **40%** for faster decision-making.
 - Deployed **insights via a dashboard** using **Flask and Matplotlib**, enhancing **data visualization and analysis**.

Business Intelligence: Sales data Visualization

- Sales Data Prediction
- Developed an **interactive sales dashboard** using **Power BI/Tableau, Python, and Pandas**, improving **data accessibility by 50%**.
 - Analyzed **sales trends and customer behavior**, increasing **revenue forecasting accuracy by 35%**.
 - Implemented **data cleaning and transformation** with **SQL and Pandas**, reducing **data processing time by 40%**.

Ecommerce API and Performance Metrics

- Ecommerce API
- Developed a **scalable E-commerce API** using **Node.js, Express.js, and MySQL**, improving **response time by 40%**.
 - Implemented **caching mechanisms** with **Redis**, reducing **database queries by 35%** and enhancing speed.
 - Optimized **API endpoints**, decreasing **latency by 30%** and improving user experience.

STRENGTHS

Analytical Thinking

Proven ability to analyze complex datasets, as demonstrated during my internship at IBM, leading to actionable insights.

Effective Communication

Skilled in presenting complex data in an understandable format, evidenced by positive feedback from Accenture team leads.

Team Collaboration

Excelled in team projects, contributing to a 20% improvement in data quality at Accenture through effective collaboration.

SKILLS

SQL	Python	Data Visualization		
Tableau	Business Intelligence			
Data Analysis		Java	DBMS	PowerBI

CERTIFICATION

Data Visualisation with Power BI

PowerBI

SimpliLearn Software Development

SimpliLearn

Preparing Data for Analysis

Microsoft

Cloud Computing

Teachnook

Business of Social

Coursera

POSITION OF RESPONSIBILITY
