Education

Chandigarh University

Bachelor of Science in Computer Science

2021 – 2025

Mohali, Punjab

Deepika English Medium School

Intermediate

2019 – 2021

Rourkela, Odisha

Experience

Delhivery

Feb 2025 – Present

Operation Analyst Intern

- Verified and validated bills, parking receipts, and other vendor claims, ensuring accuracy, authenticity, and compliance with financial policies for regular auditing.
- Collaborated with fleet vendors and finance teams to resolve billing discrepancies, prevent duplicate payments, and maintain smooth payment processing.
- Utilized MS Excel/Google Sheets for high-volume data validation, record-keeping, and generating summary reports to enhance financial integrity in fleet operations.

Projects

THE WAGE COMPASS | Tableau

- Salary Analysis: Unveiled key compensation trends and patterns across employment categories, experience levels (Junior, Mid-Level, Senior), and geographic locations by conducting a multi-source analysis of employee salary data.
- Empowered stakeholders with self-service data exploration by developing an interactive Tableau dashboard. This dashboard unveiled intricate details of employee salary data, allowing for intuitive comprehension of complex compensation structures.
- Data Communication: Transformed advanced data visualization techniques to actionable recommendations key insights derived from salary analysis to relevant stakeholders, resulting in informed decision-making processes and strategic planning initiatives.

STORE SUCCESS NAVIGATOR | MS Excel

- Dynamic Dashboard: Developed a real-time, interactive Excel dashboard leveraging slicers, timelines, and diverse graphs to facilitate intuitive exploration of sales data. This empowered stakeholders to drill down into specific trends and gain actionable insights for strategic decision-making.
- Advanced Graphs: Constructed a comprehensive suite of data visualizations in Excel, including graphs for overall sales, order channels, and sales vs. order trends. These visualizations helped identify key sales drivers, uncover hidden patterns, and improve understanding of sales performance.
- Sales Analytics: Leveraged advanced Excel functionalities to conduct a thorough analysis of sales metrics. This analysis provided granular insights into key performance indicators (KPIs), enabling data-driven recommendations for sales optimization.

Technical Skills

Languages: SQL, Python

Developer Tools: VS Code, Google Collab

Database Data Analysis Tools: Excel, MySQL

Data Visualization Tools: Tableau, Power BI, Powerpoint

Version Control: Git

Extracurricular

CU Stock Trading Challenge

StockGro

Chandigarh University

- Achieved a 20th rank among 277 participants
- Managed to make 3 percent profit of the total investment amount in 5 trading sessions.

Book Reading

Certifications

- Data Visualization with Tableau Specilization
- Intermediate in SQL on HackerRank
