Experience

Data Analyst, Techgeeks Services, Gurgaon

Oct 2024 – Feb 2025

- Translated stakeholder objectives into **business requirements** and **functional specifications** for interactive Power BI dashboards.
- Conducted **gap analysis** on user data to identify root causes of customer churn, presenting findings and recommendations to business teams.
- Utilized **SQL** to query and validate data for reporting, ensuring accuracy and alignment with business rules.

Data Analyst Intern, Areksoft Technologies, Hyderabad

Mar 2024 – Jul 2024

- Performed comprehensive data analysis to identify key trends and **documented findings** to support business strategy.
- Collaborated with business users to define requirements for Excel-based dashboards used to track retention KPIs and SLAs.
- Created and executed **test cases** to validate dashboard metrics, ensuring the final reports met user requirements.

Data Analyst Intern, Scaler (EdTech Platform), Remote

Dec 2022 – Mar 2023

- Worked with **stakeholders** to understand monitoring needs and developed insightful Metabase dashboards.
- Queried PostgreSQL databases to perform analysis that informed business decisions on improving user engagement.

Projects

Sales Funnel Optimization Dashboard

Tools: SQL, Power BI, Python

- Authored **functional specifications** by translating business objectives for tracking user progression through the sales funnel.
- Performed **User Acceptance Testing (UAT)**, prepared test cases, and validated results to ensure the dashboard provided accurate insights for stakeholders.

Customer Retention Insights Platform

Tools: SQL, Power BI, Excel

- Documented the **end-to-end delivery process** for a comprehensive Power BI dashboard, creating a playbook for future analysis.
- Conducted analysis to identify churn signals and presented actionable findings to business **stakeholders**.
