Experience

Developer Intern Tatwa Technologies	January 2025– May 2025
- Developed a dynamic and responsive web application using React.js, delivering an optimized front-end experience across various devices and screen sizes. - Developed and published modular NPM packages for APIs, which formed the basis for creating developer-friendly JavaScript SDKs, simplifying integration and enhancing accessibility across multiple programming environments. - Addressed critical VAPT (Vulnerability Assessment and Penetration Testing) issues in Team TAT, significantly improving the product's security and compliance standards. - Authored comprehensive and easy-to-follow API documentation using Postman, ensuring smooth onboarding and integration for developers through clear examples and structured content. - Collaborated in the development of an Admin Dashboard that provides detailed visualizations of user activity, system performance, and usage analytics to support better decision-making. Skills Used: React.js, Next.js, Node.js, Express.js, MongoDB, JavaScript, Git, Jira, Postman, Tailwind CSS	

Skills

Languages: Java, Python, C, JavaScript
Web Development: HTML, CSS, Node.js, Express.js, Tailwind CSS, React.js, Next.js
Databases: MongoDB, SQL
Tools: VS Code, Git, GitHub, Chrome Developer Tools, Postman, Jira
Data Analysis Skills: MS Excel, MS Word, PowerPoint, Power BI

Projects

Event Management System MERN	April 2025
Developed a web-based Event Management System enabling users to book, manage, and view event tickets. The system features user authentication, ticket generation, and QR code integration.	
- Designed and implemented responsive UI using Tailwind CSS and Vite for optimized performance - Integrated frontend with backend REST APIs for seamless event and ticket management	
Mail Client Javascript, React.js, Redux Toolkit, Dotnet,	Mar. 2025
Designed and developed a collaborative email management system with advanced features to enhance productivity and streamline communication	
Resume Evaluator using GPT or LLM APIs Python, Open AI, Flask, Django	April 2024.
A tool that scores resumes based on job descriptions using GPT or LLM APIs that extract data from job description matches with candidate resume	

Certifications

- Problem Solving (Basic), Java (Basic), Python (Basic) – HackerRank
- AMCAT Certified Data Processing Specialist - SHL
- AMCAT Certified Software Development Trainee – SHL
