EDUCATION

- Motilal Nehru National Institute of Technology, Prayagraj** 2021-2025
B.Tech in Civil Engineering CPI: 7.58
- Sunbeam School Annapurna Lahartara, Varanasi** 2020
Class XII, Central Board of Secondary Education Percentage: 94.4
- Little Flower House Kakarmatta, Varanasi** 2018
Class X, Central Board of Secondary Education Percentage: 95.8

EXPERIENCE

- Blinkit** Present
Intern Gurugram
 - Analyzing **IoT-based disruption data** using **SQL** and **machine learning** to uncover trends, generate **actionable insights**, and optimize **operational efficiency** across cold chain operations.
 - Automated ticket data pipelines** and developed a **live dashboard** in **Google Sheets** for **real-time tracking** and **SLA monitoring** of cold store disruptions.
 - Enabled **proactive decision-making** by streamlining **issue classification**, **resolution tracking**, and **escalation handling** using **custom scripts** and **alert systems**.
 - Managing **real-time operational disruptions** and supporting fast **issue resolution** across delivery networks.
- Bureau Of Indian Standards** June 2024 - August 2024
Summer Intern Delhi
 - Spearheaded** market research and **industry analysis** to formulate **national guidelines** for defect treatment in **masonry** and **concrete dam foundations**, including insights from **two site visits**.
 - Conducted** global benchmarking across **15 countries** and **authored comprehensive guidelines**, integrating **defect classification**, **case studies**, **inspection methods**, **compliance frameworks**, and **cost-effective safety solutions**.

PERSONAL PROJECTS

- Adidas Business Case – Sales & Profitability Analysis**
Technologies Employed: *Python, Pandas, ANOVA, Data Visualization*
 - Analyzed **9,648 Adidas sales records** to identify **high-margin products**, profitable **regions**, and **sales channels**, and **validated findings** using **ANOVA**, proving margin variation by **category**, **region**, and **method**.
 - Formulated data-driven revenue strategies**—advocating **online sales push**, **Southern USA expansion**, and **female footwear focus**—and **built Python visualizations** to present trends and top-performing products.
- Churn Data Analysis Dashboard**
Technologies Employed: *Power BI, SQL, Machine Learning*
 - Extracted insights from **6,481 customer records** using **SQL & Python**, enabling **churn prediction**, **customer segmentation**, and **optimizing retention strategies**.
 - Built an 84% accurate churn model** using **Random Forest** and **RFM analysis**, and **designed a Power BI dashboard** to visualize **churn drivers**, **behavioral trends**, and inform **data-driven marketing**.

TECHNICAL SKILLS AND INTERESTS

Languages: SQL, Python (NumPy, Pandas, Scikit-learn, Matplotlib, SeaBorn), Machine Learning

Tools: PowerBi, Amplitude, MySQL Workbench, MS Excel, PowerPoint (Advanced)

Soft Skills: Quickly Adapts, Analytical Thinker, Strategic Networker, Storytelling, Efficient Time Manager

Areas of Interest: Data Analysis, Product Management, Agile Methodologies, Consumer Insights, Business Strategy

POSITIONS OF RESPONSIBILITY

- Convener, E-Cell TEDx MNNIT:** Led **E-Summit, Tedx**, 10+ seminars, managing **branding and outreach**.
- Coordinator, Literary & Oration Club:** Organized 15+ debates, literary events and guest lectures at MNNIT.
- Final Year Lead, College Magazine:** Managed **content curation**, **storytelling and branding**, publishing 100+ articles.
- Head Coordinator, Student Mentorship Program:** Mentored 500+ students, built resources, increased engagement.

ACHIEVEMENTS

- 1st Place, Storytelling, Debate, Poetry, Eloquence and Pitch Deck Competitions.**
- 5-Star SQL certified on HackerRank with Microsoft and LinkedIn certifications in Data and Business Analysis.**
