WORK EXPERIENCE

Business Growth Strategist | Louie Voice

Mar 2025 - PRESENT

Identified and analyzed potential clients in the fintech and financial inclusion sectors where Louie's multilingual voice SDK could enhance user experience and accessibility.

Mapped client-specific needs to Louie's product capabilities and pitched tailored use cases across banking, insurance, and e-commerce.

Researched and identified grant providers to support fundraising efforts and product development initiatives.

Operated independently in a lean startup team, handling end-to-end research and strategy support for growth and partnerships.

Marketing Research Intern | MastersBuddy

Jun 2023 - Jul 2023

Analyzed competitor social media strategies using Meta Ads Library and secondary research.

Built data-driven dashboards in Tableau with actionable insights; recommendations helped increase reel engagement.

Operations Intern | TestBook

Sep 2021 - Oct 2021

Handled daily user experience and support operations.

Used user data to inform process improvements and internal decision-making.

Marketing Executive | Cognizance, IIT Roorkee

Dec 2020 - Apr 2022

Secured over 50 brand and NGO partnerships for campus marketing campaigns and CSR initiatives.

Led outreach, campaign planning, and social impact activities like sustainability and food distribution drives.

Feature Usage Analytics for a Web App | Self Project

Analyzed user engagement metrics to evaluate performance of key features. Used SQL and Python for data wrangling; built Looker Studio dashboards for product and marketing teams. Delivered insights that informed prioritization of feature enhancements and improved user retention.
