### OBJECTIVES:

As an MBA fresher, seeking a challenging and growth-oriented opportunity . I aim to contribute meaningfully by utilizing analytical, strategic, and domain-specific knowledge to support business decisions and innovation

### INTERNSHIP EXPERIENCE:

#### 1. TRION TECH SOLUTION

JULY 24- DEC 24

##### *Analytics intern*

- During my 6-month internship as Improved business processes through data analysis and process optimization.
- Created reports and provided actionable insights to support decision-making and enhance operational efficiency.

### PROJECT:

#### Hospital Wait Time Reduction Using Data Analytics

Domain: Business Analytics | Tools Used: Excel, Power BI, Power Query, DAX

- Analyzed OPD/IPD patient data of 250+ records to identify patterns in waiting times and peak hours.
- Used Excel for data cleaning, preprocessing, and demographic segmentation (age, gender, department).
- Designed an interactive dashboard in Power BI showing average wait times by department, doctor-wise delay, and peak time analysis.
- Applied DAX formulas for KPIs such as average wait time, occupancy rate, and appointment delays.
- Proposed data-driven strategies (online appointments, triage system, staff reallocation) to reduce wait time by 50%.
- Hypothesis testing demonstrated the impact of predictive modeling and real-time monitoring on operational efficiency and patient satisfaction.
