PROFESSIONAL SUMMARY

- **Aspiring Data & Business Analyst** with a strong academic foundation in **computer science and applications**, practical experience through academic projects and internships in data visualization, analysis, and reporting.
- Skilled in **SQL, Python, Power BI, Tableau**, and **Excel** for analyzing large datasets, creating dashboards, and deriving actionable insights to support business decisions.
- Adept at gathering **business requirements, documenting processes (BRD, SRS)**, and effectively communicating insights to both technical and non-technical stakeholders.

TECHNICAL SKILLS

- **Programming Languages:** SQL, Python
- **Tools:** Power BI (DAX, custom visuals), Tableau, Excel, Jupyter, GitHub, Streamlit,
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Keras
- **Databases & Data Handling:** MySQL, Data Cleaning, ETL, EDA, Data Modelling, KPIs, Forecasting
- **Documentation & Methods:** BRD, FRD, SRS, SDLC, Agile

EDUCATION

- **Master Of Computer Application (MCA)**, Shri Shivaji Science College, Nagpur- 2023-2025 **CGPA - 7.50**
- **Bachelor in Computer Science (BSc)**, Shri Shivaji Science College, Nagpur- 2019-2022 **CGPA - 7.89**

INTERSHIPS EXPERIENCE

Data Analytics Intern: Ai Variant [09/2023 - 02/2024], Bengaluru (Remote)

- **Designed 5+ interactive Power BI & Tableau dashboards** and reports to visualize business performance metrics.
- Performed **ETL tasks using Excel and SQL**, improving reporting **accuracy by 30%**.

Data Science Intern: Ai Variant [07/2023 - 09/2023], Bengaluru (Remote)

- Developed **forecasting models (ARIMA, LSTM)** with over **85% accuracy** for gold price prediction.
- Conducted **NLP-based email classification**, improving email tagging by **40% efficiency**

PROJECTS

- **Credit Card Fraud Detection using Autoencoders** – (Python, TensorFlow, Keras, Streamlit).
Built anomaly detection model using autoencoders; deployed with Streamlit. Improved fraud detection accuracy by 92%.
- **Bank Loan Analytics** – (Power BI, Tableau).
Designed KPI dashboards to analyze loan approvals, customer segments, and risk; delivered actionable insights for business strategy.
- **Gold Price Prediction** – (ARIMA, LSTM, FB Prophet, Streamlit deployment).
Built time-series models achieving <10% forecasting error; deployed via Streamlit for real-time user interaction.

CERTIFICATES

- **Cisco Networking Academy** - Data Analytics Essentials (Issued: Jul 20, 2025)
- **ExcelR** - Data Analyst Certification (Dec 2023)
- **ExcelR** - Data Science Certification (Jun 2023)
