WORK EXPERIENCE

Broadband Engineer Arrownet services

09/2021 - 12/2023

Chandrapur

Achievements/Tasks

- Broadband systems networks and process improvements.
- Test connections to ensure they are working optimally.
- Respond to customer service requests and troubleshooting issues in a timely manner.
- Diagnose and resolve technical issues & guidance.
- Maintain records of installations, repairs, and inspections.
- Document all installation, repair, and maintenance work for future reference.

PERSONAL PROJECTS

My Ticket - Online Bus Ticketing System (02/2025 - 03/2025)

- Gathered and analyzed requirements to define key features such as **route selection**, **seat availability**, and **payment integration**.
- Developed **Business Requirement Documents (BRD)**, **Functional Specification Documents (FSD)**, **Use Cases**, and **Test Cases** to outline system functionalities.
- Designed **UML diagrams**, **wireframes**, and **flowcharts** to represent system architecture and user interface.
- Implemented **Agile methodology** for structured execution, iterative improvements, and seamless stakeholder feedback integration.

Science Qtech Employee Performance Mapping (07/2024 - 07/2024)

- Created a **database** and corresponding **ER diagram** in **MYSQL Workbench** used all **DML**, **DDL** statements, utilized **where**, **group by**, **having**, **order by** clauses, covered all types of **joins**.
- To display only relevant data-created **views**, utilized **Stored procedures** to make it dynamic, exercised **subquery** to filter aggregate data.
- Optimized query performance by using **Indexes**, **partition clause**, and **analytic functions**.

Data Manipulation and Reporting with Power BI (04/2024 - 04/2024)

- Connected Power BI with **MySQL**, and **Excel** to import ~Thousands of records. In Power query editor performed **data profiling** for deeper data understanding.
- Transformed data into useful format, also **merged** and **appended** tables to reduce model size and optimize performance.
- In BI desktop created a **star schema** data model, also added a date table using **DAX** queries to perform **time-intelligence** queries.
