Education

National Institute of Technology, Raipur

2021 – 2025

Bachelor of Technology

CPI : 7.81/10

Experience

NoBroker (Convozen.ai)

January 2025 - Present

Product Analyst Intern

Bengaluru

- **Boosted accuracy** of key call event detection from **60% to 85%** by iteratively refining prompt logic and conducting **A/B testing on 1,000+ real customer calls**, driving improved QA and client satisfaction for Spinny and Cars24.
- Built and delivered **10+ real-time dashboards** in Metabase for clients like Cars24, Spinny, and Adda247, leveraging **SQL** to process large-scale call data , enabling real-time tracking across 120,000+ monthly calls.
- Drafted a comprehensive **PRD** for the Transcript Download feature, detailing user personas, user stories, and UX flow; enabled analysts to access filtered transcripts in minutes, replacing a previously manual and fragmented workflow.
- Built and launched **3 multilingual AI voice agents** (English, Hindi, Bengali) for clients like Toothsi, handling 5,000+ weekly calls with retry logic and dynamic response flows—resulting in a **20% boost** in lead engagement.

Projects

Human-Activity-Recognition-using-Smartphone-data | *Python ,Machine Learning*

[Project Link](#)

- Implemented data preprocessing techniques including noise filtering, sliding windows, and signal separation to enhance model performance.
- Applied various machine learning algorithms (**Logistic Regression, SVM, Decision Tree, Random Forest**) with hyperparameter tuning and cross-validation.
- Performed exploratory data analysis and visualization to gain insights and improve model predictions using **t-SNE** and feature analysis.

Hospital-mortality-analysis| *SQL*

[Project Link](#)

- Conducting insightful queries, sub queries and case statements to extract valuable information of **10,000** admitted patients
- Uncovered insightful patterns, trends, and correlations within the data
- Implemented a comprehensive data analysis framework that identified key contributing factors to in-hospital patient deaths.

Go-To-Market and Execution Strategy | **Electric Mobility Launch – ElectricPe**

[Project Link](#)

- Evaluated 5+ metro cities across 6 parameters including EV penetration, infrastructure, and incentives to identify Pune as the optimal launch location, leveraging research and decision matrices for data-driven prioritization.
- Devised a phased GTM strategy integrating manpower planning, influencer-driven marketing, and localized MVP rollout, using geo-targeted ads projected to boost EV trial engagement by **30%+**.
- Defined post-launch success metrics and built partnerships with EV manufacturers and CPOs, leveraging ElectricPe's CMS platform to scale charging infrastructure and enable data-driven expansion into Tier 1 and 2 cities.

Technical Skills

Languages : Python, SQL | Coursework : Machine Learning, Statistics

Tools: Jira , Tableau, Jupyter Notebook , Microsoft Excel , Canva , Microsoft PowerPoint

Frameworks / Libraries : Numpy , Pandas , Matplotlib , Seaborn , TensorFlow , scikit-learn

Position Of Responsibility

Head Co-ordinator : Event Management at Think India

Head Co-ordinator : Shaurya - The Sports Committee of NIT Raipur

Certification

The Complete Introduction to SQL programming. [Link](#) | Product Analytics Micro-Certification. [Link](#)

Machine Learning With Python : Complete Course For Beginners [Link](#)

Achievements

- Secured Top **100** Rank among **15000+** participating teams in ZS Campus Beats .
- National semifinalist : Hero campus challenge season 9 .
