Soft Skill: Growth Mindset, Leadership, Analytical and Integrative Thinking, Interpersonal Communication, Customer Interaction, Team Coordination, Quick Learning

PROFESSIONAL EXPERIENCE

Quantel.in

1 January 2024 – 30 June 2024

Operations Intern

Delhi

- Conducted detailed data analysis using Excel and SQL to identify trends, optimize operational processes, and support decision-making.
- Managed cross-functional projects from inception to completion, ensuring on-time delivery and alignment with business objectives.
- Led and managed the end-to-end project of the UPSC toppers within AIR 500 felicitation program, graced by former Vice-President of India **M. Venkaiah Naidu**, ensuring flawless execution and stakeholder engagement.
- Created and maintained detailed data reports and PowerPoint presentations to effectively communicate insights.

PROJECTS

Namma Yatri Application Analysis | Microsoft SSMS, MySQL, Power BI

- Solved complex SQL problems using the Namma Yatri dataset, uncovering key business insights to drive data-informed decisions.
- Designed and developed interactive dashboards in Power BI to visualize operational and performance metrics.
- Showcased the practical use of Power BI for creating actionable visual insights that contributed to business growth and efficiency. (GitHub).

Sales Analysis | Python, Pandas, Matplotlib, Microsoft Excel, Jupyter Notebook

- Performed in-depth sales data analysis using Python, Pandas, and Excel to identify trends, growth opportunities, and key performance indicators (KPIs).
- Generated actionable business insights through advanced data analytics, contributing to improved sales strategies and revenue growth.
- Created compelling data visualizations with Matplotlib to present findings and insights clearly to stakeholders and decision-makers. (GitHub).

Super Sales Dashboard | Microsoft Power BI, Microsoft Excel

- Developed an interactive superstore sales dashboard using Power BI and Excel, generating a 15-day sales forecast to support business planning.
- Designed the dashboard to display monthly sales year-over-year, profit by state, category-wise sales, average delivery time, and key actionable insights. (GitHub)
