Professional Summary

Detail-oriented and motivated Power BI & Data Analyst with hands-on experience in building interactive dashboards and reports using Power BI, SQL, and Excel. Proficient in DAX, Power Query, and data modeling to derive actionable insights. Strong foundation in analytics with a passion for turning data into business value. Certified in Data Analytics with practical project exposure across domains like sports, retail, and e-commerce.

Technical Skills

Visualization Tools: Power BI, Tableau

Languages: SQL, Python (Pandas, NumPy)

Data Tools: Power Query, DAX, Excel (PivotTables, VLOOKUP, Charts), Power BI Service

Databases: SQL Server, MySQL

Web: HTML, CSS, Bootstrap

Other: MS Office, GitHub, RLS, Scheduled Refresh, Data Modeling

Projects

IPL Dashboard using Power BI

Built an interactive dashboard to predict match outcomes and visualize team performance.

Used DAX to create KPIs and custom measures; applied row-level security for team-specific access.

Data imported and cleaned using Power Query; final model used for data storytelling.

Retail Sales Dashboard

Designed a Power BI report to analyze regional sales, returns, and profit margins.

Integrated Excel and SQL data sources, optimized performance using best practices.

E-commerce Website (HTML + SQL)

Created a fully responsive shopping website using HTML, CSS, SQL.

Incorporated form validation, basic SQL for backend data storage.

Data Visualization in Tableau

Created dashboards for IPL teams and business performance; used Tableau Story to present insights.
