OBJECTIVE

Highly motivated recent graduate with a strong foundation in data analysis and a passion for uncovering actionable insights. Proficient in SQL, Python, and Excel. Excellent communication and teamwork skills.

EDUCATION

Post Graduate Diploma in Big Data Analytics , CDAC, Bengaluru	Mar 2024 – Aug 2024
Bachelor of Technology , IMS Engineering College, Ghaziabad	2013 – 2017

SKILLS

Programming Languages	Python, R
Data Analysis	SQL, NumPy, Pandas, Seaborn, Matplotlib, PyTorch
Visualization	Power BI, Excel, PowerPoint, Google Sheets
Machine Learning	Logistic Regression, Linear Regression, Clustering, Decision Trees, Random Forest
Statistics	Hypothesis Testing, A/B Testing
Databases	MySQL, MongoDB

EXPERIENCE

Data Science Intern	Mar 2025 – June 2025
Street Surge, Gurugram, India	

- Achieved a 92% reduction in Google Maps API calls by implementing DBSCAN-based geospatial clustering using concave hulls.
- Generated actionable insights through complex SQL queries and Python-based data analysis.
- Migrated 2.2 TB of geospatial data from AWS to GCP and integrated with BigQuery for scalable analytics.

PROJECTS

Hotel Revenue Management Dashboard

[GitHub Repo](#)

- Built an interactive dashboard visualizing KPIs like RevPAR, ADR, and Occupancy for multiple properties and platforms.
- Increased RevPAR by 5% by identifying low-performing booking channels and optimizing strategies.

Super Store Sales Data Analysis

[GitHub Repo](#)

- Created a sales dashboard to visualize regional performance, customer segments, and product categories.
- Analyzed sales data to identify key trends, including year-over-year growth patterns, top-performing product categories, and the impact of different shipping methods on sales performance. Increased sales by 10 by identifying and addressing underperforming product categories.

Netflix Content Insights Dashboard

[GitHub Repo](#)

- Analyzed Netflix library to identify genre trends, rating distributions, and content type focus.
- Developed an interactive dashboard visualizing these trends (genre, ratings, content type, release date, origin) to provide stakeholders with actionable insights for content strategy and decision-making.
