EDUCATION

Indian Institute of Technology Guwahati, India
Bachelor of Technology in Civil Engineering

Jul 2020 - Jun 2024
GPA: 7.64/10.0

TECHNICAL SKILLS

Programming Languages: Python(Advanced), Numpy, Pandas, SQL, MYSQL, C++, C
Data Science/Machine Learning: Scikit-learn, NLP, HuggingFace, GenAI, langchain, LLM, OpenAI, A/B testing
Data Visualization Tools: MS Excel, Power BI, Tableau
Soft Skills: Project Management, Business Analysis, Data insights Generation

EXPERIENCE

Peoplecloudcorp pvt. ltd.
Data Analyst, Internship

Oct 2024 - Jan 2025
Ahmedabad, India

- Collaborated with cross-functional teams to gather reporting requirements and implemented optimized **SQL** queries in Oracle Cloud to deliver client-specific business reports.
- Automated data validation workflows using Python, reducing manual verification time by **80%** and improving the accuracy of imported datasets.
- Conducted detailed data analysis using SQL and Excel on **100,000+** records to identify trends, anomalies, and actionable insights for stakeholders.
- Delivered weekly **dashboards and insights** to business teams, improving procurement decisions and supplier management processes.

PROJECTS

IPL Performance Dashboard – Power BI Project

Personal Project

Git-Hub

- Built an interactive **Power BI** dashboard analyzing 1096 IPL matches (2008–2024) with season-wise insights like winners, city-wise matches, top scores, and wicket-takers.
- Developed match-level analytics with dynamic slicers for season, team1, team2, and match number, allowing users to explore match outcomes, over-wise scoring trends (via dual histograms), top-scoring batsmen, and target scores.
- Created **advanced visualizations** for performance benchmarking, **trend analysis**, and **strategic insights** using comprehensive kaggle IPL datasets.
- Performed **data cleaning** and **preprocessing** using **Python (Pandas)** and **SQL** to handle missing values, standardize team names, remove duplicates, and transform raw match data into structured formats.

RFMVisio: Visualizing Customer Segments through Tableau's Lens

Personal Project

Git-Hub

- Conducted **RFM** analysis in **SQL** to segment customers into 6 categories by recency, frequency, and monetary value.
- Designed an interactive **Tableau** dashboard to optimize marketing strategies, identifying **15%** lost customers, **25%** slipping customers, and **10%** potential churners through Root Cause Analysis(RCA).
- Enhanced expertise in **data analysis**, **SQL**, and **Tableau** through project execution.

SQL-Genius

Personal Project

Git-Hub

- Built **GenAI-powered SQL Query generator** using **HuggingFace embeddings** that converts natural language to optimized queries, **reducing data extraction time by 40%**.
- Developed **MySQL Workbench integration** enabling **real-time validation** of AI-generated SQL, with dynamic table/-database management capabilities.
- Automated routine query generation through **few-shot learning (LangChain)**, reducing standard query development time from **15 minutes to 1 minute** with **92% accuracy**.

POSITIONS OF RESPONSIBILITY

Technical Secretary, Brahmaputra Hostel IITG:

May 2022 - April 2023

- Directed a **multi-tiered** team of 150 junior and 20 senior executives from Brahmaputra Hostel, leading successful participation in 23 technical events post-COVID-19, culminating in an overall **3rd place** at Technical event Kriti.
- Achieved a 10% reduction in operational costs by securing in-kind partnerships with local vendors, efficiently managing a budget of INR 1.2 million for hostel events.

KEY COURSES TAKEN

Data Science & Analytics : IBM data analyst, IBM Applied Data Science, Machine Learning.

Computer Science : Introduction to Computing, Computing Laboratory.

Mathematics & Statistics: Linear Algebra, Probability & Statistics, Calculus, Arithmetic.

ACHIEVEMENTS

GeeksForGeeks	Consistently ranked in the top 200 on GeeksforGeeks among peers at the institute.	Present
Hackerrank	Achieved 5-star proficiency in python language course.	Present
Leetcode	Completed all the 50/50 SQL Advanced Questions	2025
