

Tejas Mhetre

CEOP Technological University. [Project Management]

Email Id – tejasmhetre95@gmail.com | +91-9307357783 | <https://www.linkedin.com/in/tejasmhetre01/>

Seeking a challenging opportunity where I can apply my M.Tech coursework, practical internship experience and proficiency in Agile methodologies (Kanban, Scrum, JIRA), risk management and data analysis (Excel, Power BI). Eager to contribute to successful project delivery by supporting planning, execution, coordination and stakeholder communication within a dynamic team.

EDUCATIONAL QUALIFICATION

YEAR	Degree	INSTITUTE / UNIVERSITY	CPI/PERCENTAGE
2024 –2026 (expected)	M.Tech (Project Management)	COEP Technological University.	8.52
2019 – 2023	B.Tech (Mechanical Engineering)	Shivaji University, Kolhapur.	6.93

SUBJECTS / ELECTIVES	Business Environment and Corporate Strategies, Agile Project Management, Project Risk Management, Principle Of Project Management
---------------------------------	--

EXPERIENCE

Intern | Japtech Industries | Jun 2023 – Aug 2023

- Created 3 standardized reports that improved clarity for management review.
- Assisted senior project staff in coordination tasks, facilitating communication between engineering and production teams for 2 ongoing projects.
- Collaborated with cross-functional teams (Engineering, Production, Quality) to track project milestones, contributing to on-schedule progress reporting.
- Participated in daily quality checks, identifying and reporting potential issues, contributing to a ~5% reduction in rework during the internship period.

Intern | Kadam Pattern Ltd | Dec 2022 – Feb 2023

- Supported project planning and execution for 2 new pattern development projects by tracking task progress and assisting with resource allocation updates.
- Performed rigorous quality assurance checks and final inspections on over 5 finished patterns, ensuring 100% adherence to client specifications.
- Contributed to process improvement initiatives by mapping existing workflows and suggesting optimizations leading to potentially faster turnaround times.
- Gained hands-on experience in finishing and surface treatment techniques, understanding their impact on project timelines and quality.

SKILLS

Project Management : Agile Methodologies, Kanban, Scrum, Project Planning & Execution, Risk Identification & Assessment, Project Coordination, Stakeholder Communication, Process Documentation & Improvement, Quality Assurance, Business Analysis, Task Tracking, Reporting, Leadership, Decision-Making

Technical Tools : MS Project, JIRA, Microsoft Excel (Pivot Tables, Dashboards, VLOOKUP), Microsoft Power BI (Data Cleaning, Visualization, Reporting), Minitab, Microsoft Word, Microsoft PowerPoint

Languages : English, Marathi, Hindi

Academic Projects

Sales Analysis Dashboard using Excel Pivot Tables - Analysis

Jan 2025 - Feb 2025

- Developed an interactive Excel dashboard using Pivot Tables, Pie Charts and Graphical Representations to analyze store sales data.
- The dashboard provides insights into state-wise sales, product-wise performance across months and age-group-based sales distribution, enabling data-driven decision-making for business strategy optimization.
- The dashboard helps end user save data visualization time and reduces analysis time.

Store Ecommerce -Data Analysis & Visualization Using Power BI – Analysis

Dec 2024 - Jan 2025

- Developed a Power BI dashboard to analyze and visualize store sales data.
- Imported, cleaned and managed datasets to ensure accuracy and consistency.
- Created interactive reports showcasing state-wise sales, product-wise trends, monthly sales patterns and age-group-based sales distribution.
- Utilized advanced Power Query and visualization tools to extract meaningful insights.

Design And Development of Pesticides Spraying Machine |B. tech Final Year| Jul 2022 – Mar 2023

- Developed a pesticide spraying machine which works by minimum human efforts. It does not require electrical energy.
- It reduces the fatigue of operator and eliminated the cyclic action of operator's hand.
- The model was economically affordable and can be used in small to medium land areas.

Analyzing the Effect of diameter of air vessel on Efficiency of Hydraulic Ram| B. Tech 3rd year | Jul 2021 - Apr 2022

- Led a team of 5 members to create a concept design and fabricate the Hydraulic Ram which helped in increasing the efficiency of hydraulic ram.
- The prototype focused on Lifting water from a source of water to a targeted community. The Effect of volume of air vessel on the efficiency of hydraulic ram was studied.

EXTRA CURRICULAR ACTIVITIES

Participation in Marathon, Meditation, Travel And Trekking, Photography, Intra-College Cricket, 2023.

CERTIFICATION FROM MOOC PLATFORM 'SIMPLILEARN '

Introduction to JIRA	Introduction to Kanban	Introduction to Generative AI Studio
Power BI for Beginners	Business Analytics with Excel	Introduction to MS Excel
PMP Basics	Business Analysis Basics	Introduction to-Agile
