Marathi

WORK EXPERIENCE

- Jan 2021 - Jun 2021 Internship Trainee
DBS Mintech pvt ltd , Baner
It's Outbonding voice process for lead generation and helping customer with Company product and Services.

Projects

- 2 Months Digital slam book
The Slambook project is a digital version of a traditional slambook, allowing students to share personal information, thoughts, and memories in a fun and interactive way. Built using VB.NET.
- 2 Weeks Spotify Clone
Build a front-end replica of Spotify's web player using only HTML and CSS. This project focuses on recreating the look and feel of Spotify's interface—complete with navigation bar, sidebar, music cards grid, and a sticky bottom player. It's a great exercise to:
Structure layouts using HTML5, and style components with CSS3 (Flexbox, Grid, positioning)
Implement responsive design with media queries, ensuring it adapts to desktop and mobile views
Apply visual enhancements like hover effects, custom icons/fonts, and consistent typography
Mirror Spotify's signature dark theme with green highlights and clean design

COURSES & CERTIFICATIONS

- Certificate course in Programming
- MERN Stack Development
