PROFILE

Data-driven engineering student with a strong foundation in predictive analytics, machine learning, and supply chain optimization. Skilled in using Python, SQL, and key data science libraries to solve real-world problems through data-driven insights. Eager to contribute to challenging roles where analytical thinking, technical skills, and business understanding can create measurable impact in real-world applications.

EDUCATION

Indian Institute of Technology, Roorkee - *B.Tech*

OCTOBER 2022 - JULY 2026 (EXPECTED)

CGPA: 7.234

A.V. International Public School, Sirsa (CBSE) - *Intermediate (Class XII)*

APRIL 2020 - JULY 2021

Percentage: 96.60%

A.V. International Public School, Sirsa (CBSE) - *Matriculate (Class X)*

APRIL 2018 - MAY 2019

Percentage: 97.60%

SKILLS

Computer Languages: Python, C++, SQL

Tools: Jupyter Notebook, Excel, Powerpoint

Libraries/Frameworks: NumPy, pandas, matplotlib, seaborn, scikit-learn, PyTorch

PROJECTS

Credit Card Default Prediction - *IIT Roorkee*

JUNE 2025

- Developed a predictive model to classify credit card defaulters using CatBoost, XGBoost, Random Forest, and Logistic Regression, achieving an F_2 -score of 0.6 and minority class recall of 86%.
- Engineered 18 domain-specific features (e.g., credit utilization ratio, repayment-to-bill ratio, delinquency streak) to enhance model explainability and performance.

-
- Handled class imbalance using SMOTE, threshold tuning, and class weighting; optimized decision boundaries and custom threshold selection.
 - Deployed final model on unseen customer data to generate probabilistic risk scores and binary predictions, enabling targeted credit risk interventions.

Predictive Analytics for Grocery Supply Chain Optimization - IIT Roorkee

APRIL 2025

- Designed and deployed a predictive framework for B2B grocery operations, integrating customer order prediction and SKU-level demand forecasting.
- Engineered features from time-series order data; implemented Cat Boost models achieving 80% ROC-AUC in customer prediction and low MAE in demand forecasting.
- Automated 14-day inventory planning through scalable Python pipelines, reducing stock-outs and overstock risk for 60K+ order records.

Phishing URL detection using Machine Learning - DoMS, IIT Roorkee

OCTOBER 2024 - NOVEMBER 2024

- Developed a phishing URL detection system using machine learning, achieving 99.75% accuracy.
- Applied advanced feature engineering and balanced imbalanced data using SMOTE.
- Performed exploratory data analysis to understand key aspects of the dataset.
- Evaluated multiple classification models (KNN, Logistic Regression, SVM and Decision Tree), optimizing for precision and recall.

Consumer Segmentation and Strategy Optimization - IIT Roorkee

SEPTEMBER 2024

- Conducted exploratory data analysis (EDA) and clustering on a credit card dataset to uncover consumer behavior patterns and segment customers effectively.
- Identified distinct consumer segments using clustering algorithms and proposed tailored strategies for each segment.
- Leveraged Python libraries including pandas, matplotlib, scikit-learn, and scipy for data preprocessing, visualization, and clustering.

LEADERSHIP AND CAMPUS INVOLVEMENT

Public Relations Manager - Cognizance, IIT Roorkee

JANUARY 2025 - PRESENT

- Led a 4-tier team across 7 verticals, directly managing 85+ PR executives and volunteers, and coordinating 1100+ Campus Ambassadors across India.
- Managed PR campaigns for 50+ national-level events with a combined prize pool of INR 50+ Lakhs, within an overall fest budget of INR 1.5 Crore.
- Drove outreach strategy for 220+ colleges across 35+ cities, resulting in participation from 13,000+ students.

Editorial Head - *MIESS, IIT Roorkee*

JUNE 2024 - PRESENT

- Leading editorial activities, ensuring the timely delivery of high-quality content.
- Coordinating content creation and publication efforts to optimize engagement and readership.

Media Executive - Design - *Unnat Bharat Abhiyan, IIT Roorkee*

APRIL 2023 - MAY 2024

- Managed Instagram content creation to optimize reach and engagement.
- Led branding efforts for the Candle Making Initiative by UBA IITR.
- Designed UBA IITR's official newsletter to enhance communication and engagement.
