

Khushboo

Karnal, Haryana

8307669338, Khushbookarnal9829@gmail.com

Education

Chandigarh University
Master's in Computer Application

August-2023 – May 2025
Gharuan, Punjab

Experience

Front End Developer Intern, Vithysis

Dec 2024 – Jan 2024,

- Designed and created **responsive, user-friendly interfaces** using **HTML, CSS, and JavaScript**, improving UI performance by **60%**.
- Delivered front-end solutions across multiple active applications, aligning with current design principles and **increasing interface reliability by over 40%**.
- Collaborated with **cross-functional teams** to debug issues, optimize performance, and enhance user experience, meeting **50% of project deadlines**.

Projects

Personal portfolio | HTML, CSS, JAVASCRIPT

Jul 2024

- Crafted **responsive and user-centric interfaces** using HTML, CSS, and JavaScript, **leading to a 60% enhancement** in UI performance.
- **Incorporated interactive** elements, animations, and a modern design, optimizing user experience and improving UI responsiveness by **70%**.
- Applied **mobile-first design principles**, ensuring **80% responsiveness**, optimized performance, and cross-browser compatibility.

Yhills Registration Form | HTML, CSS, JAVASCRIPT

Oct 2024

- **Developed** a Registration Form for user, enabling users to fill the information, enhancing user engagement and content management.
- **Implemented user authentication and authorization**, securing access for **80% of content creators and administrators**, reducing unauthorized access risks by **45%**.

Face recognition System, Python

Dec 2024

- **Developed a face recognition** system using Python and OpenCV to detect and recognize human faces in real-time. Implemented Haar cascade classifiers for face detection and LBPH (Local Binary Patterns Histograms) algorithm for recognition. Designed a simple GUI for user interaction and integrated a database to store and match face data. Gained hands-on experience in computer vision, image processing, and machine learning concepts.

Wiki tunes| Figma

Mar-2025

- Designed an interactive music application prototype using Figma, focusing on intuitive user experience and modern UI aesthetics.
- Developed wireframes, user flows, and high-fidelity mockups for core features like music discovery, playlists, now playing, and user profiles.
- Ensured responsive layout and consistent visual style suitable for both iOS and Android platforms.
- Emphasized ease of navigation, minimalistic design, and personalized user engagement in the design choices.

Technical Skills

- **Languages:** Python, Basic C++, HTML, CSS, Javascript , Agile Technology
- **Databases:** SQL
- **Developer Tools:** VS Code, GitHub
- **Frameworks:** Figma
- **Visualization Tools:** Advanced Excel, Power BI

Leadership/Achievements

- **Python Certificate (Chandigarh University):** covered core python concepts and object-oriented programming, achieved a score of 81/100.
- **Full Stack Developer Certificate (Yhiils):** Gained practical knowledge in full stack and deployment strategies, completing real-world scenarios.
- **Business Intelligence and Data analytics (Coursera):** Gained Practical Knowledge in Business Intelligence and Data analytics tools.
