

SUJIT GAWADE

Pune, Maharashtra

+91-7378385001 gawadesujit86@gmail.com LinkedIn

PROFILE

Analytical and motivated Computer Engineering student with hands-on experience in Python, SQL, Power BI, Excel, and data analysis. Proficient in Object-Oriented Programming (OOPs) and skilled in transforming data into meaningful insights through visualization and reporting. A quick learner with strong adaptability to new technologies and the ability to work with any emerging tools. Eager to contribute to impactful, real-world projects in a dynamic, growth-oriented environment.

SKILLS

- **Programming & Data Analysis:** Python (OOPs, NumPy, Pandas, Matplotlib, Seaborn, SciPy), SQL, Data Cleaning.
- **Visualization & Reporting:** Power BI, MS Excel, Dashboard Development, Report Generation, Insights Presentation
- **Data Handling & Databases:** MySQL, Data Cleaning, EDA
- **Web Development:** Basic HTML & CSS, familiar with React.js
- **Tools & Technologies:** Jupyter Notebook, Google Colab, Git, GitHub, Beautiful Soup, AWS (Basics)
- **Soft Skills:** Analytical, Problem Solver, Communicative, Team Player, Adaptable, Time-Efficient, Quick Learner, Open-Minded

EDUCATION

Parvatibai Genba Moze College of Engineering, Pune – 2021 – 2025
B.Tech in Computer Engineering CGPA: 8.81

M.E.S Boys High School, Pune – 2021
12th (HSC) Percentage: 86%

Cygnnet Public School, Pune – 2019
10th (SSC) Percentage: 73%

PROJECTS

Power BI Report for Student Marks – Power BI, MySQL

Developed an interactive Power BI dashboard for student marks, implementing Row-Level Security (RLS) to ensure parents could access only their child's data. Published on Power BI Service with controlled public access while maintaining data privacy. Used MySQL for efficient data storage and leveraged Power BI for impactful visualizations.

Airbnb Listings EDA – Python, Pandas, Seaborn, Matplotlib

Performed Exploratory Data Analysis on NYC Airbnb listings to uncover trends in pricing, availability, and room types. Used Python libraries (Pandas, Seaborn, Matplotlib) for cleaning and visualization. Identified key host behaviors, price outliers, and provided actionable insights for guests and hosts

Online Bookstore SQL Project – MySQL

Designed a relational database with tables for books, customers, and orders. Imported CSV data and wrote SQL queries using joins, filters, and aggregations to analyze sales, revenue, and stock levels.

CERTIFICATIONS

- Deloitte Data Analytics Job Simulation
- HackerRank SQL
- Accenture Data Analytics by Forage
