

HARSH SANJAY SHARMA

Pune, Maharashtra • sharsh7500@gmail.com • +91-9326561574 • [LinkedIn](#)

PROFESSIONAL SUMMARY

Dedicated B.E. student specialized in AI & ML with strong analytical and data interpretation skills. Proficient in SQL, Python, Excel, and Power BI with hands-on experience in data cleansing, normalization, and reporting to support business decisions. Familiar with managing master data, creating dashboards, and aligning analytics with profitability goals.

SKILLS

Python, SQL, Power BI, Microsoft Excel, Data Visualization, Statistics

EXPERIENCE

Project Trainee, Bhabha Atomic Research Centre (BARC)

May 2024 - Jul 2024

Key skills: LLM models, Embedding Models, RAG, Streamlit

- Developed a Retrieval-Augmented Generation application for question answering from PDFs, Implemented text segmentation to extract and chunk relevant information.
- Transformed extracted text chunks into vector embeddings for efficient processing, Stored embeddings in Chroma DB for efficient retrieval.
- Utilized the Llama-2-7b AI LLM model, resulting in over 90% accuracy rates for the answers generated
- Built a user-friendly interface using Streamlit to enhance user experience.

EDUCATION

Bachelor of Engineering (Artificial Intelligence and Machine Learning) SIES Graduate School of Technology

2021 – 2025
CGPA - 8.23/10

Class 12th - Maharashtra State Board Smt Sushiladevi Deshmukh Vidyalaya & Jr College

2020 – 2021
Percentage - 78.50%

Class 10th - Maharashtra State Board St. Xavier's High School

2018 – 2019
Percentage - 78.60%

PROJECTS

Online Sales Analysis using Power BI

Key skills: Power BI, Data Cleaning, Dashboard Design

- Analyzed online sales data and built an interactive Power BI dashboard to analyze KPIs like monthly profit/loss, total orders, and region-wise sales.
 - Ensured data integrity through thorough cleaning and normalization within Power BI.
 - Designed intuitive charts such as stacked area, donut, bar, and map visuals to present trends, payment methods, and geographic distribution.
 - Delivered actionable insights to support strategic decisions and improve profitability.
-

Football Analysis using YoloV8

Key skills: Python, YoloV8

- Performed football video analysis using YOLOv8x, including object detection, annotation, and visualization with bounding boxes and NMS.
- Fine-tuned the model on a football dataset with 100 epochs and 640x640 image size for efficient and accurate detection.
- Annotated football videos by detecting and tracking players and the ball with distinct markers for visual clarity.
- Extracted embeddings, reduced dimensions with UMAP, and used KMeans clustering to classify players into two teams.

POSITION OF RESPONSIBILITY

Position of Head in Media Team of SIES GST

- As the head of the Media team, I was responsible for managing events and ensuring everything flowed smoothly. My role involved overseeing event planning, coordinating with various teams, and ensuring every aspect of our media presence was executed flawlessly.
