EDUCATION

Symbiosis International University

B. Tech in Electronics and Telecommunication,

Relevant Coursework: Data structure & Algorithm, OOP, Mathematics

Pune, India

July 2016 – May 2020

Gujarat Technological University

Post Graduate Diploma in Data Science

Relevant Coursework: Machine Learning, SQL, Python, Statistics

Ahmedabad, India

July 2025 – Excepted Apr 2026

TECHNICAL SKILLS

- Programming & Analytics: Python (Pandas, NumPy, Matplotlib), MYSQL, C
- Visualization Tools: Microsoft Power BI, Tableau, Google Data Studio, Google Sheets
- Data Analysis: Data Cleaning, EDA, Feature Engineering,
- Automation & Reporting: Google Apps Script, Excel (VLOOKUP, Pivot Tables), Forms
- Other Tools: Microsoft Office, Ai- Sensy, Workflow Optimization

PROJECTS

IPL Exploratory Data Analysis | *Python, Pandas, NumPy, Matplotlib, Sea Born*

[[Link](#)]

- Conducted EDA on 600+ IPL matches using Python (Pandas, NumPy, Matplotlib, Seaborn) to analyze team performance, toss impact, and player stats from 2008–2023.
- Generated insightful visualizations highlighting top 5 players, win patterns, and batting-first advantages to support data-driven cricket strategies.

EXPERIENCE

Data Analyst Intern

March 2025 – June 2025

Smartprep Academy

Remote

- Cleaned and organized messy datasets, built a dynamic fee calculator, and automated attendance using Google Sheets, Forms & Apps Script—reducing manual effort by 40%.
- Analyzed student engagement data, managed AiSensy campaigns, and developed dashboards to track website and social media performance.

Data Visualization Associate

January 2024- February 2024

Excelerate

Remote

- Created a streamlined data cleaning pipeline with Python and Pandas, cutting preprocessing time by 30% and making data readily available for analysis.
- Developed interactive dashboards in Google Data Studio, making reports more accessible and accelerating business decisions by 25%. Received a **\$500** performance bonus for excellence.

Data Analyst Intern

April 2023 – June 2023

Technocolabs Software Inc.

Remote

- Built sales forecasting models and predicted startup acquisition success using Python, improving accuracy by 18% and reaching 92% model performance.
- Streamlined the workflow by automating data prep and tuning steps, which helped cut prediction time by 30% and made insights available much faster.

Graduate Apprentice

September 2021 – August 2022

Software Technology Parks of India

Surat, India

- Monitored network metrics and implemented preventive actions, reducing downtime by 2% and sustaining 98.5% uptime.
- Analyzed bandwidth trends using Excel and built daily performance reports, cutting resource waste by 15% and boosting system efficiency.

CERTIFICATES

- SQL For Data Analytics (Udemy)
- Google Data Analytics Certificate (Coursera)
- Microsoft Power BI for Business Analytics (Udemy)
- Advanced Excel (Udemy)
