📁 [Portfolio](#)

Profile Summary

- Aspiring Business Analyst with hands-on experience in requirement gathering, documentation, and stakeholder collaboration to support business decision-making.
- Proficient in Power BI, SQL, and Python, with a solid foundation in data analysis, business intelligence, and agile tools like JIRA
- Adept at simplifying complex data to drive business insights, compliance analysis, and strategic decision-making environment

Relevant Coursework

- Forecasting
- Business Analysis
- Data Mining
- Operation Research
- KPI Reporting
- Predictive Analysis
- JIRA
- Statistical Analysis

Experience

Thinkitive Technologies Pvt Ltd - Software Engineer Trainee

March 2025 – July 2025

- Collaborated with cross-functional teams to develop a healthcare analytics platform supporting real-time performance tracking and business decision-making.
- Designed Power BI dashboards to monitor key performance indicators and support operational decisions.
- Participated in Agile sprints using JIRA to manage user stories and task assignments.

SevenMentor Pvt Ltd - Data Science Intern

July 2024 – March 2025

- Worked closely with business teams to understand use cases and define project objectives for sentiment analysis and predictive models.
- Participated in project meetings to communicate findings and align deliverables with business needs.
- Built interactive Power BI dashboards to provide real-time insights for monitoring performance Analysis.

Projects

Healthcare Intelligence Analysis | Jupyter, Power BI, Python | [GitHub Repository](#)

May 2025

- Partnered with design teams to build a healthcare analytics web interface, increasing data accessibility and driving 25% higher user engagement.
- Developed Power BI dashboards for real-time healthcare KPIs, reducing report generation time by 30% and aiding decision-making for 5+ clinical teams.
- Analyzed patient data using Python and ML algorithms to identify high-risk groups, improving early diagnosis accuracy by 15%

Social Media Sentiment Analysis | Python, Power BI, ML, Data Integration | [GitHub Repository](#)

Nov 2024

- Applied NLP techniques including tokenization, stop-word removal, and sentiment scoring to extract insights from text data.
- Engineered dynamic Power BI dashboards for monitoring real-time sentiment trends, improving stakeholder responsiveness by 40%
- Delivered actionable reports and visual insights for stakeholder communication, driving data-informed business decisions.

Technical Skills

Business & Data Analysis : Power BI, DAX, MS Excel, Requirement Gathering Business Process Mapping, Data Interpretation

Programming Languages: Python, SQL,

Methodologies: Agile, SDLC, Stakeholder Communication, User Story Creation, A/B Testing

Data Tools & Frameworks: Jupyter Notebook, MySQL, GitHub, Scikit-learn, TensorFlow, Visual Studio

Soft Skills: Problem Solving, Analytical Thinking, Decision Making, Cross-Team Collaboration, Adaptability

Education

MIT ADT University

2021 – 2024

Bachelor of Technology (CSE) – CGPA: 6.10

Pune, Maharashtra

Rajarshi Shahu Maharaj Polytechnic

2019 – 2021

Diploma (CSE) – Percentage: 85.29

Nashik, Maharashtra
