Education

Ajeenkya DY Patil University

Bachelor of Technology in Biomedical (CGPA of 8.0)

August 2018 - June 2022

Maharashtra, India

Dr. D Y Patil University

Master in Business Artificial Intelligence and Machine Learning (CGPA 8.17)

August 2022- September 2024

Maharashtra, India

Experience

Radon Media

SEO Analyst Intern

July 2024 - Current

Maharashtra, India

- Analyzed website performance using Google Analytics and Looker Studio, identifying trends to drive data-informed SEO strategies and growth opportunities.
- Conducted keyword research and implemented on-page/off-page SEO, achieving improved rankings and increased organic traffic.
- Optimized website content and structure based on monthly KPI data, ensuring SEO efforts met performance goals.
- Created monthly reports with actionable insights for stakeholders, visualizing key metrics and SEO effectiveness.

CodTech

Data Analyst Intern

July 2024 - September 2024

Maharashtra, India

- Supported accurate creation, documentation, and standardization of product data across systems to ensure consistency and reliability.
- Collaborated with cross-functional teams to gather data and create insightful Power BI reports, assisting in testing and user training to enhance data-driven decision-making.
- Followed company policies while actively learning new skills and contributing to product lifecycle management for improved workflow efficiency.

WNS Global Services

Business Development Associate

June 2022 - November 2023

Maharashtra, India

- Proactively address and resolve client's concerns to ensure a high level of satisfaction and maintain strong client relationships.
- Collaborate with cross-functional teams, including product and engineering, to tackle complex challenges and deliver effective solutions.

Projects

Employee Management System | Python |

- The Employee Management System is a Python desktop application developed using Tkinter and utilizes a MySQL database to store and manage employee information for companies and colleges.
- It enables various operations such as adding, deleting, updating, searching, and displaying employee data like name, mobile number, email ID, address, department, and salary.

Social Media | MySQL |

- Completed the project on the database 'SOCIAL MEDIA' where implemented.
- Used the concepts of **DML, DQL, DDL, DCL Joins, and Functions in the database to complete the project**

Customer Churn Prediction | Machine Learning, Python, Data Analysis, Matplotlib, Seaborn|

- A Machine Learning Model which can predict the churning rate in a Bank. Estimated that 10 percent of the customers who will churn may belong to the age group 30-45.
- Implemented data analysis and visualization with Matplotlib and Seaborn. Led the end-to-end development of a sophisticated Machine Learning solution in Python.

Global Store dataset Dashboard | *Power BI* |

- Designed and developed Power BI dashboards for in-depth analysis of the Global Store dataset, incorporating diverse visualization tools and filters for dynamic data exploration and insights.
- Conducted detailed region and state-level analysis, enabling users to drill down into specific geographic areas for targeted performance insights.
- Analyzed sales data across product categories and sub-categories, providing comprehensive views on sales trends and performance, while presenting overall sales metrics to track growth and revenue patterns effectively.

Achievements

- **ICETET SIP 2023** I attended the Eleventh International Conference of (ICETET SIP - 23), achieving certification for both presentation and paper writing.
- **On June 19, 2023, published a paper on LIVETHAT: An app for educating people about the AUTISM SPECTRUM**, which is available on the **IEEE Xplore** platform. (<https://ieeexplore.ieee.org/document/10151651>)

Certifications

- Python
- MySQL
- Power BI
- Machine Learning
- Artificial Intelligence

Technical Skills

- **Language:** Python, SQL
- **Technologies/Frameworks/Libraries:** Jupyter Notebook, Numpy, Pandas, MySQL, Advance Excel, PowerBI, Google Analytics, Looker Studio, Machine learning, Artificial Intelligence, NLP, LSTM, CNN, Tensorflow.

Interpersonal Skills

Communication, Team Management, Analysis, Visualization, Problem-Solving, Adaptability, Business Analysis, Strategy Planning.
