Objective

Aspiring AI/ML Engineer with hands-on experience in NLP, LLMs, and real-time web app development. Skilled in building GenAI solutions using FastAPI, Streamlit, and transformer models. Seeking an opportunity to apply technical and creative problem-solving skills to impactful AI projects.

Skills

Programming & Tools: Python, SQL, Git, Streamlit, Jupyter, R (basic)

Libraries & Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, PyTorch (basic)

AI & NLP Tools: HuggingFace Transformers, Sentence-BERT, RoBERTa, FAISS, LangChain (basic), Prompt Engineering

ML Concepts: Regression, Classification, Clustering, Time-Series Forecasting, Model Evaluation

Other: Excel (PivotTables, VLOOKUP), Firebase (Firestore), REST APIs

Projects

AI Mental Health Assistant

- Built an AI-powered app using **FastAPI**, **Streamlit**, and **Sentence-BERT** to detect depression severity via PHQ-9 responses
- Integrated **RoBERTa** for emotion detection and **Random Forest** for severity classification using text embeddings
- Delivered empathetic replies and journaling prompts, with session logging via Firebase Firestore

AI-Driven Personalized Marketing for E-commerce

- Analyzed user behavior and purchase history to predict product preferences using clustering, collaborative filtering, and LSTM
- Delivered personalized recommendations for targeted marketing campaigns

IMDb Rating Predictor (Deployed)

- Developed a regression model using **Scikit-learn**, achieving $R^2 = 0.82$
- Built an interactive Streamlit app for real-time movie rating predictions based on cast, genre, and budget

Stock Price Prediction Using LSTM

- Applied LSTM for time-series forecasting, achieving MAE of 11.3% and $R^2 = 0.78$

- Used normalization, sliding window techniques, and historical stock trends

Experience

Data Science Intern | CodSoft (Remote) | Jan 2024 – Feb 2024

- Built predictive models using **Scikit-learn** for real-world datasets
- Conducted EDA, preprocessing, and statistical analysis with Pandas, Seaborn, and Matplotlib

Product Specialist | Labtron Equipment Pvt. Ltd. | Sep 2022 – Sep 2023

- Handled technical product marketing, client support, and quotations for scientific equipment

Education

M.Sc. Data Science 2025 (*Final Sem*) | SNDT Women's University, Mumbai

PG Diploma in Computer Science Application (2023–24) – CGPI: 8.57 (A+)

M.Sc. Biotechnology (2020–22) – CGPI: 9.50 | Viva College, Mumbai University

B.Sc. Biotechnology (2017–2020) – CGPI: 8.68 | Thakur College, Mumbai University

Certifications

- ChatGPT + Power BI Workshop – Infosys Foundation (Inspire Program)
- Data Science Job Simulations – British Airways & BCG (Forage)
