Summary — Results-driven Data Analyst and MBA candidate specializing in Business Analytics with a strong foundation in Information Technology. Skilled in Python, SQL, Power BI, Machine Learning, and Data Visualization. Proven ability to develop predictive models, analyze large datasets, and deliver actionable business insights. Passionate about bridging technology and business to drive strategic decisions.

Education

Post Graduate Diploma in Management (PGDM) – VES Business School, AICTE | Pursuing | Expected: 07/2025
Master of Science in Information Technology (M.Sc. IT) – VSIT, Mumbai University | CGPI : 9.77/10 | 06/2022
Bachelor of Science in Information Technology (B.Sc. IT) – VSIT, Mumbai University | CGPI : 9.43/10 | 10/2020

Experience

Strategic Execution Consultants Pvt. Ltd., Bangalore

Mar 2024 – Mar 2025

AI Intern

- Led end-to-end requirement gathering and documentation for AI-driven analytics solutions.
- Designed structured logic and interconnected mind maps for platform workflows, ensuring seamless AI-driven assessments, job matching, and course recommendations, leading to a 10 percent increase in user efficiency.
- Led market research by analyzing 50+ industry reports and surveying 1,000+ students and counselors, identifying key skill gaps and refining the career recommendation algorithm, improving job-role alignment.
- Collaborated with cross-functional teams to optimize the ML pipeline for career assessments, achieving 70-75 percent accuracy in skill-matching and enabling automated career roadmap generation.

Projects

Optimizing Mental Health Prediction through Machine Learning Analysis

- Analyzed psychological health and socio-demographic factors using various machine learning algorithms to predict mental health outcomes.

Student Performance Prediction System

- Designed and developed interactive dashboards in Power BI to visualize and analyze student performance metrics, enabling insights into academic trends and early intervention strategies.

Movie Similarity Analysis Using NLP

- Developed a movie recommendation system using NLP techniques to analyze movie plot similarities, leveraging TF-IDF vectorization and cosine similarity.

Skills

- **Data Analytics & Business Intelligence:** SQL, Python, R, Power BI, Data Cleaning, Data Visualization, Excel, Reporting
- **Business Analysis & Strategy:** Requirement Gathering, Stakeholder Engagement, Business Case Development
- **Machine Learning & Predictive Analytics:** Regression Models, Classification, Prediction Models

Competitions & Honors

- Presented research paper at Business Analytics Intelligence Conference **(BAICON) 2024 at IIM Bangalore**
- Received Letter of Intent from Strategic Execution Consultants Pvt Ltd
- Finalist, Inter-Collegiate Avishkar Research Convention AY-2021-22
- Presented research at National Conference on 'Emerging Trends in Computer Science & IT' (NCETCSIT – 2020)

Certifications

- **Microsoft Technology Associate:** Programming Using Python
- **Cisco Networking Academy:** Data Analytics Essentials
- **Coursera:** Data Visualization with Power BI: Storytelling with Data
