TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C++, SQL, JavaScript
- **Frameworks:** Spring Boot, Spring Security, Hibernate, REST APIs
- **Tools & Technologies:** Postman, Git, GitHub, Linux, IntelliJ, Eclipse, PostgreSQL, MySQL
- **Relevant Coursework:** Database Management Systems, Object-Oriented Programming, Data Structures and Algorithms, Software Engineering
- **Areas of Interest:** Full Stack Development, Backend Development, RESTful APIs, Startups

EDUCATION

- **Chandigarh University** Mohali, India
Bachelor of Engineering in Computer Science and Engineering; CGPA: 7.26/10.0 July 2026 - Present
- **Holy Cross School** Uttar Pradesh, India
10+2; Percentage: 70% July 2022
- **Holy Cross School** Uttar Pradesh, India
10; Percentage: 74% July 2019 - July 2020

PROJECTS

- **Employee Management System:**
 - Developed a strong foundation in **Core Java**, implementing object-oriented programming principles and efficient data structures for robust application development.
 - Applied **Java Collections** (List, Set, Map) to enhance data storage and retrieval, optimizing performance and memory usage.
 - Integrated **JDBC** for seamless database interactions, ensuring efficient execution of **CRUD operations** with **MySQL**.
 - Built **RESTful APIs** using **Spring Boot**, where **Hibernate** and **JPA** played a **crucial role** in handling database interactions, ensuring seamless data persistence and optimized **backend performance**.
 - Followed the **MVC (Model-View-Controller) architecture** to structure code in a modular and maintainable manner, reducing development complexity.

OTHER PROJECTS

- **Tic Tac Toe Game:**
 - Developed an interactive Tic Tac Toe game using **HTML**, **CSS**, and **JavaScript**, integrating **event listeners** and **DOM manipulation** for real-time updates.
 - Implemented **win/draw logic** with smooth UI transitions, a **settings panel** for difficulty selection, and responsive design for an engaging user experience.
 - Enhanced gameplay with **CSS animations** and a **modal-based notification system**, improving accessibility and user satisfaction.

ACHIEVEMENTS & CERTIFICATIONS

- **LeetCode:** Solved 100+ problems on LeetCode, focusing on Data Structures and Algorithms. [Profile Link](#)
- **Core Java:** Gained a strong foundation in Core Java, mastering OOP principles and data structures while applying concepts through hands-on projects. [Certification Link](#)
- **Spring Boot 3, Spring 6 & Hibernate:** Learned Spring Boot 3, Spring 6, Spring Core, Spring REST, Spring MVC, Spring Security, Thymeleaf, JPA, and Hibernate. [Certification Link](#)
- **Introduction to Relational Databases (RDBMS):** Learned Database Design, PostgreSQL, Relational Database Management System (RDBMS), and MySQL. [Certification Link](#)
- **Complete Git and GitHub:** Learned Git basics, branching, merging, and collaboration using GitHub. [Certification Link](#)
