PERSONAL PROJECTS

JIRA Tool Hands-on Simulation | Guided Project

- Created and configured a project in JIRA using the Kanban framework to simulate Agile workflows.
- Customized a Kanban board with WIP limits, transitions, and workflow stages.
- Created and organized issues, user stories, and epics; developed a basic product roadmap.
- Assigned team roles and tracked task progress to replicate real-world Agile collaboration.

Netflix Strategic Analysis | Academic Project

- Conducted user interviews and surveys to analyse consumer preferences and content consumption trends.
- Performed a SWOT analysis and identified opportunities to enhance user engagement and retention.
- Suggested strategies for expansion, focusing on localisation and user onboarding.
- Explored future product innovations, including interactive storytelling and gamification.

User Centered Strategy | Personal Project

- Worked on design thinking tools to understand the user journey and identify key pain points.
- Analysed various design thinking methodologies, including Mind Mapping, to explore improvement opportunities.
- Gained insights into user-centric problem-solving and innovation through structured design thinking approaches.

Product Roadmapping | Guided Project

- Gained experience in organising features into high-level initiatives and goals for strategic alignment.
- Understood how to define a compelling product vision to guide long-term development.
- Explored roadmapping techniques to improve execution, prioritisation, and stakeholder communication.

WORK EXPERIENCE

PRODUCT STRATEGY AND GROWTH INTERN | BOUNCE INFINITY

June 25 - Present

- Conducted user research to identify growth opportunities and pain points
- Contributed to campaigns (push, referral, nudges) and tracked impact on engagement
- Proposed UX improvements based on journey mapping and user feedback
- Executed A/B tests to boost first ride conversions, KYC completion, and retention
- Collaborated with product, design, marketing, and ops teams on growth initiatives

PRODUCT INTERN - GROWTH | CARS24

March 25 - MAY 25

- Assisted in the development of Go-To-Market (GTM) strategies for Care+, collaborating with product, marketing, and sales teams to ensure seamless execution across channels.
- Conducted competitive analysis and customer segmentation to inform GTM decisions, positioning Care+ as a market leader in its category
- Supported AI tool development for hub sales advisors to boost engagement and conversions.
- Contributed to user journey mapping and analyzed user feedback to identify pain points and optimize the overall product experience.
