SUMMARY

Aspiring Data Analyst with a strong foundation in SQL, Python, and data visualization. Aiming to apply analytical skills to solve business problems and uncover insights that drive strategic decisions.

SKILLS

- Skill: SQL, Python, Data Visualization, EDA
- Tools: Power-Bi, Excel, Jupyter, MySql

EXPERIENCE

Python Intern

Bloomzen InfoSolutions

Thane, india

- Worked on developing desktop applications using Python, focusing on intuitive UI and efficient backend integration.
- Built reusable components, managed user interactions, and contributed to end-to-end development life cycle.
- Gained hands-on experience with libraries like Tkinter, PyQt, and SQL integration.

PROJECT

1. Walmart Sales Data Analysis Using Python & SQL

- Built an end-to-end data analysis pipeline for Walmart sales data using Python, Pandas, and SQL (MySQL) to derive business insights.
- Cleaned and transformed raw Kaggle data, engineered revenue metrics, and automated data loading into relational databases.
- Executed complex SQL queries (e.g., aggregations, window functions) to uncover trends in sales, customer behavior, and profitability.

2. Customers Satisfaction Prediction

- Analyzed customer support dataset in Jupyter using Pandas and Seaborn for data cleaning and visualization
- Trained and evaluated Random Forest and Decision Tree classifiers; optimized model performance
- Achieved ~87% accuracy and evaluated model using F1-score and other metrics.

EDUCATION

- BE (Artificial Intelligence and Data Science) 2023-2026
Terna Engineering College
- Diploma (Computer Engineering) 2020-2023
Navjeevan Polytechnic
Grade: 80.1

CERTIFICATION

- Career Essentials in Data Analysis by Microsoft and LinkedIn
- Deloitte Data Analytics job simulation
