EDUCATION

Vignan's Institute of Management and Technology for Women <i>B .Tech in Computer Science and Engineering-Data Science</i>	2021 – 2025
Vasundara Junior College For Girls <i>Intermediate</i>	2019 – 2021
Vijaya High School <i>SSC</i>	2019

PROFILE

Computer Science graduate skilled in Python, Java, and SQL. Built multiple academic projects demonstrating real-world problem-solving and teamwork. Eager to contribute to software development in a dynamic IT company with a strong focus on learning and growth.

KEY SKILLS

Soft Skills: — Communication, Problem-Solving, Time Management, Teamwork, Adaptability, Quick Learner, Multitasking.

Operating Systems: — Windows

Backend: — Python, Java

Database: — SQL

Web Technologies: — HTML

Tools: — VS Code, IntelliJ IDEA, Jupyter Notebook, Google Colab

CS Fundamentals: — OOPS, DBMS, OS, ML

PROJECTS

1. A Multi-Stream Feature Fusion Approach for Traffic Flow Prediction

Tech Stack: Python, Flask, HTML, CSS, JavaScript, MySQL

- Designed and developed a machine learning model using a multi-stream feature fusion approach to enhance traffic flow prediction accuracy.
- Aimed to support urban planners and policymakers in reducing congestion and improving transportation efficiency through data-driven insights.

2. Developing a Blockchain-Based Evault System for Maintaining Legal Records

Tech Stack: Python, Node.js, JavaScript, Solidity, HTML, CSS, Bootstrap, Flask

- Built a decentralized blockchain-based platform to securely store and manage sensitive legal and financial records for the revenue department.
- Focused on ensuring data integrity, transparency, and security while eliminating centralized vulnerabilities.

CERTIFICATES

- Python for Data Science - NPTEL
- SQL Basic - HackerRank
- Python Basic - HackerRank
- Smart Interviews-Fundamentals of DSA

LANGUAGES

Telugu, Hindi, English, Marathi

WORK EXPERIENCE

StudentTribe

04/2025 – 05/2025

AI Annotation Intern

Madhapur, Hyderabad

- Annotated and labeled large datasets for machine learning models, focusing on [e.g., text classification, image segmentation, sentiment analysis]
- Worked closely with machine learning engineers to refine training datasets, identify edge cases, and improve data quality.
- Gained practical exposure to supervised learning, data preprocessing, and the critical role of labeled data in model performance.
- Contributed to improving model precision by delivering high-quality annotated datasets within tight deadlines.

COURSES

Fundamentals of DSA

04/2025 – 05/2025 | Hyderabad

Smart Interviews

- Master Fundamentals of Coding
- The Coding 101 Program is designed to build a strong foundation in programming.

DECLARATION

“I certify that the information provided in this resume is true and accurate to the best of my knowledge”.
